The International Bestseller

"This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and

instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- \* Create profitable side hustles that you can turn into passive income streams or full-time businesses
- \* Save money without giving up what makes you happy
- \* Negotiate more out of your employer than you thought possible
- \* Travel the world for less
- \* Live for free--or better yet, make money on your living situation
- \* Create a simple, money-making portfolio that only needs minor adjustments
- \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich

Mobile has reprogrammed your customers' brains. Your customers now turn to their smartphones for everything. What's tomorrow's weather? Is the flight on time? Where's the nearest store, and is this product cheaper there? Whatever the question, the answer is on the phone. This Pavlovian response is the mobile mind shift – the expectation that I can get what I want, anytime, in my immediate context. Your new battleground for customers is this mobile moment – the instant in which your customer is seeking an answer. If you're there for them, they'll love you; if you're not, you'll lose their business. Both entrepreneurial companies like Dropbox and huge corporations like Nestlé are winning in that mobile moment. Are you? Based on 200 interviews with entrepreneurs and major companies across the globe, *The Mobile Mind Shift* is the first book to explain how you can exploit mobile moments. You'll learn how to:

- Find your customer's most powerful mobile moments with a mobile moment audit.
- Master the IDEA Cycle, the business discipline for exploiting mobile. Align your business and technology teams in

four steps: Identify, Design, Engineer, Analyze.

- Manufacture mobile moments as Krispy Kreme does – it sends a push notification when hot doughnuts are ready near you. Result: 500,000 app downloads, followed by a double-digit increase in same-store sales.
- Turn one-time product sales into ongoing services and engagement, as the Nest thermostat does. And master new business models, as Philips and Uber do. Find ways to charge more and create indelible customer loyalty.
- Transform your technology into systems of engagement. Engineer your business and technology systems to meet the ever-expanding demands of mobile. It's how Dish Network not only increased the efficiency of its installers but also created new on-the-spot upsell opportunities. Mobile is rapidly shifting your customers into a new way of thinking. You'll need your own mobile mind shift to respond.
