Visions presents readings organized by themes that stimulate readers to critically evaluate recent changes in our culture and society brought about by technological and business innovations. The readings in the book direct readers to question whether the rapid changes to our reality are all positive and whether society and culture is losing some of its basic values by so readily embracing change. The main issue running throughout most of the readings and assignments is the conflicting, often competing, roles that the lure of complex

technologies and the comfort of simpler, older ones play in all our lives. Six thematic units contain readings separated into smaller units that enable students to focus on a limited topic, to read a few selections on that topic, and to write analytically in response to differing viewpoints. Extensive pedagogy includes reading headnotes with pre-reading questions, aphorisms that provide occasions for short writing assignments in each unit, and writing assignments that consider each reading cluster together. For beginning composition writers.

This simple
nonfiction picture
book about the
beloved American
poet William Carlos
Williams is also about
how being mindful
can result in the
creation of a great
poem like "The Red
Wheelbarrow"--whic
h is only sixteen
words long. "Look
out the window.
What do you see? If
you are Dr. William
Carlos Williams, you
see a wheelbarrow. A
drizzle of rain.
Chickens scratching
in the damp earth."
The wheelbarrow
belongs to Thaddeus
Marshall, a street
vendor, who every
day goes to work

selling vegetables on the streets of Rutherford, New Jersey. That simple action inspires poet and doctor Williams to pick up some of his own tools--a pen and paper--and write his most famous poem. In this lovely picture book, young listeners will see how paying attention to the simplest everyday things can inspire the greatest art, as they learn about a great American poet.

“ Applicants looking for the competitive edge in getting accepted at the business school of their choice may want to peruse this book. ” – Security Traders Handbook Every year, thousands apply for a finite number of places in business schools. With similar

grades, backgrounds, and goals, sometimes the only thing that can make an applicant stand out is the application essay. It's the best chance you have to shine and tip the balance in your favor. Essays That Worked for Business Schools shows that the best essays are brief, sincere, and personal. Some are off the wall, some are bold, all are unique to their creator. One applicant writes about starting his own airline. Another tells about the corruption in his job as a defense contractor. And a third reflects on his license plate. From the thousands submitted each year, the forty essays in this book were considered some of the best by admissions officers at the nation's top

business schools. As this collection demonstrates, with creativity and effort you can turn almost any topic into an effective, successful essay for your business school application.

Defending

Assessment

Security in a

Digital World

explores the phenomenon of e-

cheating and

identifies ways to

bolster assessment

to ensure that it is

secured against

threats posed by

technology.

Taking a multi-

disciplinary

approach, the

book develops the

concept of assessment security through research from cybersecurity, game studies, artificial intelligence and surveillance studies.

Throughout, there is a rigorous examination of the ways people cheat in different contexts, and the effectiveness of different approaches at stopping cheating.

This evidence informs the development of standards and metrics for assessment security, and ways that assessment design can help

address e-cheating. Its new concept of assessment security both complements and challenges traditional notions of academic integrity. By focusing on proactive, principles-based approaches, the book equips educators, technologists and policymakers to address both current e-cheating as well as future threats.

From award-winning author-illustrator Don Tate comes a remarkable picture book biography of William Still, known as Father of the Underground Railroad. William Still's parents escaped slavery but had to leave two of their children behind, a tragedy that haunted the family. As a young man, William went to work for the Pennsylvania Anti-Slavery Society, where he raised money, planned rescues, and helped freedom seekers who had traveled north. One day, a strangely familiar man came into William's office, searching for information about his long-lost family. Could it be?

Motivated by his own family's experience, William Still began collecting the stories of thousands of other freedom seekers. As a result, he was able to reunite other families and build a remarkable source of information, including encounters with Harriet Tubman, Henry "Box" Brown, and William and Ellen Craft. Award-winning author-illustrator Don Tate brings to life the incredible, true story of William Still, a man who dedicated his life to recording the stories of enslaved people fleeing to freedom. Tate's powerful words and artwork are sure to inspire young readers in this first-ever picture book biography of the Father of the

Underground Railroad. Visions Schwartz & Wade A Choctaw boy tells in his own words the story of his tribe's removal from the only land its people have ever known, and how their journey to Oklahoma led him to become a ghost — one with the ability to help those he left behind. Isaac leads a remarkable foursome of Choctaw comrades: a tough minded teenage girl, a shape-shifting panther boy, a lovable five-year-old ghost

who only wants her mom and dad to be happy, and Isaac's talking dog, Jumper. The first in a series, How I Became a Ghost thinly disguises an important and oft-overlooked piece of history.
