- Let's talk about best practices for creating templates in Word. First in terms of content we've already removed the dynamic text that changes from one iteration of the template to another, and replaced it with placeholders as needed and we provided some instructions or some comments. For example, the instructions directly below the table or the comment in the summary provide a brief ...

The goal of this paper is to design and demonstrate a Best Practice Document Template (BPDT) for supporting the creation, use and evaluation of BPDs. The BPDT is a structure for describing BPs in a detailed and

systematic way. The structure is a set of pre-specified attributes or fields that create guidance when creating the BPD.
