After danger breaches their shelter, they flee south in search of civilization. But something isn't adding up about Andrew's story, and it could cost them everything. And Jamie has a secret, too. “ One of the most intriguing future cities in years. ” —Charlie Jane Anders “ Simmers with menace and heartache, suspense and wonder. ” —Ann Leckie A Best Book of the Month in Entertainment Weekly The Washington Post Tor.com B&N Sci-Fi Fantasy Blog Amazon After the climate wars, a floating city is constructed in the Arctic Circle, a remarkable feat of mechanical and social engineering, complete with geothermal heating and sustainable energy. The city ’ s denizens have become accustomed to a roughshod new way of living, however, the city is starting to fray along the edges—crime and corruption have set in, the contradictions of incredible wealth alongside direst poverty are spawning unrest, and a new disease called “ the breaks ” is ravaging the population. When a strange new visitor arrives—a woman riding an orca, with a polar bear at her side—the city is entranced. The “ orcamancer, ” as she ’ s known, very subtly brings together four people—each living on the periphery—to stage unprecedented acts of resistance. By banding together to save their city before it crumbles under the weight of its own decay, they will learn shocking truths about themselves. Blackfish City is a remarkably urgent—and ultimately very hopeful—novel about political corruption, organized crime, technology run amok, the consequences of climate change, gender identity, and the unifying power of human connection.

Named a Most Anticipated Book of the Year by Time, Entertainment Weekly, Vogue, Good Housekeeping, Oprah Daily, Glamour, USA TODAY, Parade, Bustle, San Francisco Chronicle, The Seattle Times, The Boston Globe, Tampa Bay Times, BuzzFeed, and Vulture “ A compelling read that showcases Egan ’ s masterful storytelling. ” —Time “ Dazzling. ” —Vogue “ Radiant, exhilarating. ” —Slate “ Mesmerizing...A thought-provoking examination of how and why we change. ” —People From one of the most celebrated writers of our time comes an “ inventive, effervescent ” (Oprah Daily) novel about the memory and quest for authenticity and human connection. The Candy House opens with the staggeringly brilliant Bix Bouton, whose company, Mandala, is so successful that he is “ one of those tech demi-gods with whom we ’ re all on a first name basis. ” Bix is forty, with four kids, restless, and desperate for a new idea, when he stumbles into a conversation group, mostly Columbia professors, one of whom is experimenting with downloading or “ externalizing ” memory. Within a decade, Bix ’ s new technology, “ Own Your Unconscious ” —which allows you access to every memory you ’ ve ever had, and to share your memories in exchange for access to the memories of others—has seduced multitudes. In the world of Egan ’ s spectacular imagination, there are “ counters ” who track and exploit desires and there are “ eluders, ” those who understand the price of taking a bite of the Candy House. Egan introduces these characters in an astonishing array of narrative styles—from omniscient to first person plural to a duet of voices, an epistolary chapter, and a chapter of tweets. Intellectually dazzling, The Candy House is also a moving testament to the tenacity and transcendence of human longing for connection, family, privacy, and love. “ A beautiful exploration of loss, memory, and history ” (San Francisco Chronicle), “ this is minimalist maximalism. It ’ s as if Egan compressed a big 19th-century novel onto a flash drive ” (The New York Times).

The Breakfast Club meets The Silver Linings Playbook in this powerful, provocative, and heartfelt novel about twelve strangers who come together to make the most of their final days, from New York Times bestselling and award-winning author J. Michael Straczynski. Mark Antonelli, a failed young writer looking down the barrel at thirty, is planning a cross-country road trip. He buys a beat-up old tour bus. He hires a young army vet to drive it. He puts out an ad for others to join him along the way.

But this will be a road trip like no other: His passengers are all fellow disheartened souls who have decided that this will be their final journey—upon arrival in San Francisco, they will find a cliff with an amazing view of the ocean at sunset, hit the gas, and drive out of this world. The unlikely companions include a young woman with a chronic pain sensory disorder and another who was relentlessly bullied at school for her size; a bipolar, party-loving neo-hippie; a gentle coder with a literal hole in his heart and blue skin; and a poet dreaming of a better world beyond this one. We get to know them through access to their texts, emails, voicemails, and the daily journal entries they write as the price of admission for this trip. By turns tragic, funny, quirky, charming, and deeply moving, Together We Will Go explores the decisions that brings these characters together, and the relationships that grow between them, with some discovering love and affection for the first time. But as they cross state lines and complications to the initial plan arise, it becomes clear that this is a novel as much about the will to live as it is the choice to end it. The final, unforgettable moments as they hurtle toward the outcomes awaiting them will be remembered for a lifetime.
