A New York Times Book Review Notable Book of 2017 A Wall Street Journal Best Book of 2017 From the great historian of the American Revolution, New York Times-bestselling and Pulitzer-winning Gordon Wood, comes a majestic dual biography of two of America's most enduringly fascinating figures, whose partnership helped birth a nation, and whose subsequent falling out did much to fix its course. Thomas Jefferson and John Adams could scarcely have come from more different worlds, or been more different in temperament. Jefferson, the optimist with enough faith in the innate goodness of his fellow man to be democracy's champion, was an aristocratic Southern slaveowner, while Adams, the overachiever from New England's rising middling classes, painfully aware he was no aristocrat, was a skeptic about popular rule and a defender of a more elitist view of government. They worked closely in the crucible of revolution, crafting the Declaration of Independence and leading, with Franklin, the diplomatic effort that brought France into the fight. But ultimately, their profound differences would lead to a

fundamental crisis, in their friendship and in the nation writ large, as they became the figureheads of two entirely new forces, the first American political parties. It was a bitter breach, lasting through the presidential administrations of both men, and beyond. But late in life, something remarkable happened: these two men were nudged into reconciliation. What started as a grudging trickle of correspondence became a great flood, and a friendship was rekindled, over the course of hundreds of letters. In their final years they were the last surviving founding fathers and cherished their role in this mighty young republic as it approached the half century mark in 1826. At last, on the afternoon of July 4th, 50 years to the day after the signing of the Declaration, Adams let out a sigh and said, At least Jefferson still lives. He died soon thereafter. In fact, a few hours earlier on that same day, far to the south in his home in Monticello, Jefferson died as well. Arguably no relationship in this country's history carries as much freight as that of John Adams of Massachusetts and Thomas Jefferson of Virginia. Gordon Wood has more than done justice to these entwined lives and their meaning; he has written a magnificent new addition to America's collective story.

The Broken Road U of Minnesota Press
Patrick Leigh Fermor recounts the last leg of his epic walk across Europe as he makes his way through Bulgaria, Romania, and finally Greece. In the winter of 1933, eighteen-year-old Patrick (" Paddy ") Leigh Fermor set out on a walk across

Europe, starting in Holland and ending in Constantinople, a trip that took him almost a year. Decades later, Leigh Fermor told the story of that life-changing journey in *A Time of Gifts* and *Between the Woods and the Water*, two books now celebrated as among the most vivid, absorbing, and beautifully written travel books of all time. *The Broken Road* is the long-awaited account of the final leg of his youthful adventure that Leigh Fermor promised but was unable to finish before his death in 2011. Assembled from Leigh Fermor's manuscripts by his prizewinning biographer Artemis Cooper and the travel writer Colin Thubron, this is perhaps the most personal of all Leigh Fermor's books, catching up with young Paddy in the fall of 1934 and following him through Bulgaria and Romania to the coast of the Black Sea. Days and nights on the road, spectacular landscapes and uncanny cities, friendships lost and found, leading the high life in Bucharest or camping out with fishermen and shepherds – in the *The Broken Road* such incidents and escapades are described with all the linguistic bravura, odd and astonishing learning, and overflowing exuberance that Leigh Fermor is famous for, but also with a melancholy awareness of the passage of time, especially when he meditates on the scarred history of the Balkans or on his troubled relations with his father. The book ends, perfectly, with Paddy's arrival in Greece, the country he would fall in love with and fight for. Throughout it we can still hear the ringing voice of an irrepressible young man embarking on a life of adventure.

A Kentucky Outdoors Reader Penguin

Through Woods on Water is a novel, an historic fiction: the life of Étienne Brûlé "as it might have been." Set in the first decades of the 17th century, it is a coming of age story, a clash of cultures, a saga of exploration and adventure that rebounds between the enclosed corridors and courtyards of Paris, across the open, storm-tossed Atlantic, to the wilderness waterways of the vast Canadian forest. Savignon and Étienne, Wendat and French, are in their mid teens when they meet on the shores of the broad St Lawrence River, brought there by the chalk-faced shaman Ostemoy and the determined navigator Champlain. Inspired by the Wendat heroes Iouskeha and Tawiscaron, who gave shape and texture to the world of the Wendat, the two form an unlikely lifetime bond symbolized by the half turtle Oki or talisman that each wears about his neck. Their connection intensifies through decades of wandering, discovery, torture and adventure, until it concludes with a final confrontation by the Sweetwater Sea. Only then are the halves of the Turtle Oki fused once more.

Young Hiram Walker was born into bondage. When his mother was sold away, Hiram was robbed of all memory of her—but was gifted with a mysterious power. Years later, when Hiram almost drowns in a river, that same power saves his life. This brush with death births an urgency in Hiram and a daring scheme: to escape from the only home he's ever known. So begins an unexpected journey that takes Hiram from the corrupt grandeur of Virginia's proud plantations to desperate guerrilla cells in the wilderness, from the coffin of the Deep South to dangerously idealistic movements in the North. Even as he's enlisted in the underground war between slavers and the enslaved, Hiram's resolve to rescue the family he left behind endures. This is the dramatic story of an atrocity inflicted on generations of women, men, and children—the violent and capricious separation of families—and the war they waged to simply make lives with the people they loved. Written by one of today's most exciting thinkers and writers, *The Water Dancer* is a propulsive, transcendent work that restores the humanity of those from whom everything was stolen. Praise for *The Water Dancer* "Ta-Nehisi Coates is the most important essayist in a generation and a writer who changed the national political conversation about race with his 2015 memoir, *Between the World and Me*. So naturally his debut novel comes with slightly unrealistic expectations—and then proceeds to exceed them. *The Water Dancer* . . . is a work of both staggering imagination and rich historical significance. . . . What's most powerful is the way Coates enlists his notions of the fantastic, as well as his fluid prose, to probe a wound that never seems to heal. . . . Timeless and instantly canon-worthy." —Rolling Stone

The Book That Launched an International Movement "An absolute must-read for parents." —The Boston Globe "It rivals Rachel Carson's *Silent Spring*." —The Cincinnati Enquirer "I like to play indoors better 'cause that's where all the electrical outlets are," reports a fourth grader. But it's not only computers, television, and video games that are keeping kids inside. It's also their parents' fears of traffic, strangers, Lyme disease, and West Nile virus; their schools' emphasis on more and more homework; their structured schedules; and their lack of access to natural areas. Local governments, neighborhood associations, and even organizations devoted to the outdoors are placing legal and regulatory constraints on many wild spaces, sometimes making natural play a crime. As children's connections to nature diminish and the social, psychological, and spiritual implications become apparent, new research shows that nature can offer powerful therapy for such maladies as depression, obesity, and attention deficit disorder. Environment-based education dramatically improves standardized test scores and grade-point averages and develops skills in problem solving, critical thinking, and decision making. Anecdotal evidence strongly suggests that childhood experiences in nature stimulate creativity. In *Last Child in the Woods*, Louv talks with parents, children, teachers, scientists, religious leaders, child-development researchers, and environmentalists who recognize the threat and offer solutions. Louv shows us an alternative future, one in which parents help their kids experience the natural world more deeply—and find the joy of family connectedness in the process. Chop Wood Carry Water: How to Fall In Love With the Process of Becoming Great New York Review of Books

Stone Barrington only wants a winter getaway from the chill of New York in the beautiful, tropical Caribbean paradise of St. Mark's. But what the lawyer and ex-cop gets instead is the chance to defend Allison Manning. The beautiful young woman stands accused of killing her rich husband on board their luxurious yacht and then burying him at sea. Stone isn't exactly conversant with the island country's law, but this much is clear to him: Allison is being railroaded by the perverse sense of justice of a prosecutor who will do anything to stay in office. Donning the robe and wig of a British barrister, Stone does everything he can to save Allison—from publicizing the case all over the American press to conducting the kind of smart, tough investigation that money can't buy. Just when he has the jury in the palm of his hands, a shocking reversal of fortune changes everything. And what was once a sure thing begins to look a lot like a death sentence.

A Novel Farrar, Straus and Giroux (BYR) Survival in the wilderness--Gary Paulsen writes about it so powerfully in his novels Hatchet and The River because he's lived it. These essays recount his adventures alone and with friends, along the rivers and in the woods of northern Minnesota. There, fishing and hunting are serious business, requiring skill, secrets, and inspiration. Luck, too--not every big one gets away. This book takes readers through the seasons, from the incredible taste of a spring fish fresh from the smokehouse, to the first sight of the first deer, to the peace of the winter days spent dreaming by the stove in a fishhouse on the ice. In Paulsen's north country, every expedition is a major one, and often hilarious. Once again Gary Paulsen demonstrates why he is one of America's most beloved writers, for he shows us fishing and hunting as pleasure, as art, as companionship, and as sources of life's deepest lessons.

The Extraordinary Story of the Last True Hermit University of Georgia Press

In 1933, the eighteen year old Patrick Leigh Fermor set out in a pair of hobnailed boots to chance and charm his way across Europe, like a tramp, a pilgrim or a wandering scholar. The books he later wrote about this walk, A Time of Gifts, Between the Woods and the Water, and the posthumous The Broken Road are a half-remembered, half-reimagined journey through cultures now extinct, landscapes irrevocably altered by the traumas of the twentieth century. Aged eighteen, Nick Hunt read A Time of Gifts and dreamed of following in Fermor's footsteps. In 2011 he began his own great trudge - on foot all the way to Istanbul. He walked across Europe through eight countries, following two major rivers and crossing three mountain ranges. Using Fermor's books as his only travel guide, he trekked some 2,500 miles through Holland, Germany, Austria, Slovakia, Hungary, Romania, Bulgaria and Turkey. His aim? To have an old-fashioned adventure. To slow down and linger in a world where we pass by so much, so fast. To discover for himself what remained of hospitality, kindness to strangers, freedom, wildness, adventure, the mysterious, the unknown, the deeper currents of myth and story that still flow beneath Europe's surface.

Stillness Is the Key Simon and Schuster

This beloved account about an intrepid young Englishman on the first leg of his walk from London to Constantinople is simply one of the best works of travel literature ever written. At the age of eighteen, Patrick Leigh Fermor set off from the

heart of London on an epic journey—to walk to Constantinople. A Time of Gifts is the rich account of his adventures as far as Hungary, after which Between the Woods and the Water continues the story to the Iron Gates that divide the Carpathian and Balkan mountains. Acclaimed for its sweep and intelligence, Leigh Fermor's book explores a remarkable moment in time. Hitler has just come to power but war is still ahead, as he walks through a Europe soon to be forever changed—through the Lowlands to Mitteleuropa, to Teutonic and Slav heartlands, through the baroque remains of the Holy Roman Empire; up the Rhine, and down to the Danube. At once a memoir of coming-of-age, an account of a journey, and a dazzling exposition of the English language, A Time of Gifts is also a portrait of a continent already showing ominous signs of the holocaust to come.

In the fall of 1948, Ernest Hemingway made his first extended visit to Italy in thirty years. His reacquaintance with Venice, a city he loved, provided the inspiration for Across the River and into the Trees, the story of Richard Cantwell, a war-ravaged American colonel stationed in Italy at the close of the Second World War, and his love for a young Italian countess. A poignant, bittersweet homage to love that overpowers reason, to the resilience of the human spirit, and to the worldweary beauty and majesty of Venice, Across the River and into the Trees stands as Hemingway's statement of defiance in response to the great dehumanizing atrocities of the Second World War. Hemingway's last full-length novel published in his lifetime, it moved John O'Hara in The New York Times Book Review to call him "the most important author since Shakespeare." John Adams and Thomas Jefferson New York Review of Books

The unforgettable true story of Christopher Knight, who found refuge from the pressures of modern society by living alone in the Maine woods for twenty-seven years.
