## Psychoanalysis - Counselling Directory

In Between Therapist and Client, Michael Kahn explores what is perhaps the most important aspect of therapy - the therapist-client relationship. As he traces the history of the clinical relationship from Freud to the present, Kahn shows how the enmity between the humanists and the psychoanalysts limited their therapeutic effectiveness - and how their recent reconciliation has opened up exciting new possibilities for the way therapists relate to their clients, pointing to a new period in the ...

There is considerable evidence that the therapeutic relationship contributes significantly to outcomes. This important contribution from leaders in the field of cognitive behaviour therapy articulates how to pay attention to the moment by moment interactions between client and therapist and conceptualise them within CBT terms.

[Client-Therapist Relationship in Gestalt Psychotherapy ...](#)

Perhaps the most important aspect of the therapeutic process is the relationship between therapist and client. For years, two major schools of thought have strongly disagreed about what the nature of that relationship should be. The humanists emphasized warmth and empathy. The psychoanalysts kept a neutral, cool distance.

[Between Therapist and Client: The New Relationship ...](#)

The therapeutic relationship is the connection and relationship developed between the therapist and client over time. Without the therapeutic relationship, there can be no effective or meaningful therapy. This applies to all forms of counselling and psychotherapy, and regardless of the theoretical orientation of your therapist or counsellor, the relationship developed between you will be considered of high importance.

The humanists emphasized warmth and empathy. The psychoanalysts kept a neutral, cool distance. Recently, however, the beginnings of a reconciliation between these traditions have opened new possibilities for the way therapists relate to clients. In Between Therapist and Client, Michael Kahn shows why this new consensus is promising. Beginning with Freud's discovery of transference, Kahn traces the history of the clinical relationship from Carl Rogers' introduction of humanistic concerns ...

---

success of counselling is the way that the client and the therapist interact and relate to one another. It is so important for clients to feel heard supported, and for them to know that their therapist thinks about them and holds them in mind.

Why the therapeutic relationship matters - Counselling ...

The treatment process also relies heavily on other factors including a strong relationship between client and therapist. As with many talking therapies, a psychoanalyst must provide a private and confidential setting in which to foster a trusting and authentic relationship with their client (s).

The invisible line that divides a therapist and client ...

Relationship between the therapist and the client is a dialogic relationship wherein the therapist solicits from the client responses triggered by specific circumstances and events and also manners by which the client envisions that the same may be addressed (O'Leary et al., 2003). Thus, gestalt psychotherapy is concerned with remedial therapy through dialogue and requires not merely conversation solicitous of the concerns of the other, but an honest, open, non-judgmental and comprehensive ...

Clients project feelings, unconscious messages, on to a therapist (most often these will mirror a pattern of relating from key relationships in their own life – parents, siblings, partners and...
