Chasing Chaos Beyond Time-Out

Madrid has gone from shanty town to imperial capital in the last seven centuries. The local writers of Time Out Madrid assist

travelers in seeing the city as a native, suggesting where to stay, eat, shop and experience its cultural offerings. Famed for its wild nights and lazy days, Madrid provides a whole lot more, from spectacular opera productions, chirpy folkloric zarzuela, and cutting-edge cuisine to ancient, tiled tabernas, designer-shoe shopping, and numerous flea markets. Written by resident journalists, Time Out Madrid also covers the artistic jewels housed in the Prado, Thyssen, and Reina Sofia, as well as the etiquette of watching a bullfight or joining in with a flamenco performance, as well as where to stay and how to escape the city heat. Also included are the intriguing stories behind some of the city's best-known paintings, where to find gourmet tapas, the yoga centers, spas, and Turkish baths. Climbing, skiing, and hang-gliding are all within reach of the city, and suggested trips out of town are also recommended.

Beyond the Door, the first in the Time Out of Time duet from Maureen Doyle McQuerry, weaves a compelling coming-of-age story with fantasy and mythology. With his love of learning and the game of Scrabble, Timothy James feels like the only person who understands him is his older sister, Sarah, and he's fairly certain nothing interesting will ever happen to him. But one night, while his parents and sister are away, the door opens, and mythical creatures appear in his own living room! Soon, a mystery of unparalleled proportions begins to unfold, revealing an age-old battle of Light against Dark, and Timothy must embark on a quest to prevent the Dark from controlling the future and changing the past. But he can't complete the quest alone. Timothy has to team up with his sister and the school bully, Jessica, to face an ancient evil, and in the process, this unlikely trio discover they are each more than meets the eye. "McQuerry's compelling narrative races forward, immersing the reader in its lyrical mysteries." --Booklist, starred review "McQuerry smoothly blends adventure, coming-of-age, and mystery with a mythological world where special academic and problem-solving talents are required assets rather than nerd-bait for bullies. The

characters are charming, and the quirky, supernatural good guys are compassionate and forgiving." --VOYA "A promising start to a fantasy series mines the rich ore of Celtic mythology and propels a young boy into cosmic battle." --Kirkus Reviews "A sense of wonder and worry permeates the narrative, evocative of The Dark Is Rising or the work of Neil Gaiman, and the cliffhanger ending will leave readers clamoring for more." --Publishers Weekly "Fantasy addicts will find plenty to like in Beyond the Door, and it is beautifully designed with Ogham code (early Irish alphabet) at the bottom of the pages for kids to decipher while they are waiting for the next instalment." --School Library Journal

The Chaos of Stars Harper Collins
The covers of such magazines as Time and Newsweek have described parents as living in "mayhem" and "madness" with their children. TV's Supernanny regularly captures kids wildly, unbelievably out of control. How did our families get to such a state? Child psychologist Dr. Beth Grosshans has the answer. And mothers and fathers everywhere are listening. In what is sure to become a much-discussed blockbuster, Dr. Grosshans reveals why she believes nearly a half-century of parenting advice—with its emphasis on talking, exalting children's self-esteem, and time-outs—is largely to blame for today's lack of discipline. Her innovative ideas and techniques challenge this prevailing culture, proving that power and authority are as essential as love and good intentions to effective parenting. She persuasively explains why kids can only grow up healthy and strong when firmly led by their parents' experience and better judgment, and provides a clear, easy five step program to follow. She enables parents to look at themselves clearly and identify their child-rearing style—they are often shocked to discover how their own behavior has inadvertently caused an imbalance in the family's structure. Reading Beyond Time-Out is akin to sitting with Dr. Grosshans in her clinical office—and her core truths about healthy parent-child relationships are timeless.

Jessica Alexander arrived in Rwanda in the aftermath of the 1994 genocide as an idealistic intern, eager to contribute to the work of the international humanitarian aid community. But the world that she encountered in the field was dramatically different than anything she could have imagined. It was messy, chaotic, and difficult—but she was hooked. In this honest and irreverent memoir, she introduces readers to the realities of life as an aid worker. We watch as she manages a 24,000-person camp in Darfur, collects evidence for the Charles Taylor trial in Sierra Leone, and contributes to the massive aid effort to clean up a shattered Haiti. But we also see the alcohol-fueled parties and fleeting romances, the burnouts and self-doubt, and the struggle to do good in places that have long endured suffering. Tracing her personal journey from wide-eyed and naïve newcomer to hardened cynic and,

ultimately, to hopeful but critical realist, Alexander transports readers to some of the most troubled locations around the world and shows us not only the seemingly impossible challenges, but also the moments of resilience and recovery.

Decades of research have demonstrated that the parent-child dyad and the environment of the family â€"which includes all primary caregivers â€"are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy,

research, and practice in the United States.
