Possum Bourne: rally driver,
sporting icon, family man,

team-builder and 'great bloke'.
Three-time winner of the Asia-Pacific Rally Championship, winner seven times in a row of the Australian Rally Championship, and eight times the best placed New Zealand driver in the Rally of New Zealand. In 2003, he finally achieves his long cherished dream of competing in the World Rally Championship, but is fatally injured in a freak

car crash. This is the story of how his positive attitude, his determination to succeed, and his ability to inspire others to help him brought him motorsport fame. "Very few New Zealanders pass the first name test - instantly recognisable when just their first name is used. Ed Hillary, Zinzan Brooke, Jonah Lomu, Stacey Jones and Onny Parun are or have been examples of this rudimentary litmus test of fame. Possum Bourne was another." Hot Laboratory Equipment

Many organizations profit hugely by utilizing a Project Management Office (PMO); it means they achieve benefits from standardizing and following project management policies, processes, and methods. However, building an effective PMO is a complex process; it requires clear vision and strong leadership so that, over time, it will become the source for guidance, documentation, and metrics related to the

practices involved in managing and implementing projects. Leading Successful PMOs will guide all project based organizations, and project managers who contribute to and benefit from a PMO, towards maximizing their project success. In it, Peter Taylor outlines the basics of setting up a PMO and clearly explains how to ensure it will do exactly what you need it to do - the right things, in the right way, in the right order, with the right team.

Flugzeugabwehrkanone

18/36/37/41 - more popularly known as the ' Flak 88 ' - was one of the most successful and influential artillery gun types in the German arsenal in the Second World War. Developed during the 1920s and 1930s, the gun combined accuracy, a high muzzle velocity and a rapid rate of fire (15 – 20rpm). Although at first developed as an anti-aircraft gun, it went on to achieve equal repute as an anti-tank weapon, imposing horrific casualties on Allied armor across all major European and North African theaters of war. In one clash in Normandy, in June 1944, for example, a single Luftwaffe 8.8cm battery destroyed some 40 Allied tanks.
