Human reproductive cloning is an assisted reproductive technology that would be carried out with the

goal of creating a newborn genetically identical to another human being. It is currently the subject of much debate around the world, involving a variety of ethical, religious, societal, scientific, and medical issues. Scientific and Medical Aspects of Human Reproductive Cloning considers the scientific and medical sides of this issue, plus ethical issues that pertain to human-subjects research. Based on experience with reproductive cloning in animals, the report concludes that human reproductive cloning would be dangerous for the woman, fetus, and newborn, and is likely to fail. The

study panel did not address the issue of whether human reproductive cloning, even if it were found to be medically safe, would be "or would not be "acceptable to individuals or society.

Essential Bioinformatics is a
concise yet comprehensive
textbook of bioinformatics, which
provides a broad introduction to the
entire field. Written specifically for
a life science audience, the basics
of bioinformatics are explained,
followed by discussions of the state-
of-the-art computational tools
available to solve biological
research problems. All key areas of
bioinformatics are covered including

biological databases, sequence
alignment, genes and promoter
prediction, molecular phylogenetics,
structural bioinformatics, genomics
and proteomics. The book
emphasizes how computational
methods work and compares the
strengths and weaknesses of
different methods. This balanced yet
easily accessible text will be
invaluable to students who do not
have sophisticated computational
backgrounds. Technical details of
computational algorithms are
explained with a minimum use of
mathematical formulae; graphical
illustrations are used in their place
to aid understanding. The effective

synthesis of existing literature as well as in-depth and up-to-date coverage of all key topics in bioinformatics make this an ideal textbook for all bioinformatics courses taken by life science students and for researchers wishing to develop their knowledge of bioinformatics to facilitate their own research.

JNU BA (Hons.) in Foreign Languages Entrance Examination Guide EduGorilla Community Pvt. Ltd.
