My Revision Notes: AQA GCSE (9-1) Religious Studies Specification A Christianity, Buddhism and the Religious, Philosophical and Ethical Themes Hodder Education

The transition from RE A level, or from entirely alternate roots (many RS students have not taken previous RS related courses), to Religious Studies at university requires some careful shepherding. The field is huge. This introductory book will provide a clear map for the key features of the terrain. The two main strands shaping the book define what religions are and explain how Religious Studies approaches the religions. The language is clear at the same time as introducing some of the key terminology used in the study of religions. The study of religions and the academic discipline of Religious Studies are growing areas in tertiary education in the UK. The continued interest in RE AS and A level as well as the growth in cognate humanities and social sciences, such as Psychology, Sociology, Philosophy, at AS/A level and GNVQ level indicates the significant interest amongst students on matters that pertain to culture and humanity in general. Students realise that religion is a driving force in contemporary culture and the study of it is central to understanding the contemporary world. The statistics on religious belief bear out their interest: four billion out of the six billion people who inhabit the world profess religious belief; even in the 'secular' societies of the Western world religiosity is growing and changing--a recent BBC poll stated that 70% of people in the UK believe in a 'higher being' or spiritual force.
