**2 Stroke Carburetor Rebuild Bing 54 - YouTube**

The Bing carb is a very simple device. They are  
made from a casting. The castings vary a bit,  
as well as the engines. No two adjust exactly  
alike. One side may require 1 1/2 turns on the  
air adjustment, and the other side 2 turns out.  
Don't fret over this as long as all else seems  
correct, and the carb adjustment responds  
correctly.

[http://www.bingpower.de/en/service/tuning-manuals/Sachs Bing Part Numbers](http://www.bingpower.de/en/service/tuning-manuals/Sachs%20Bing%20Part%20Numbers). Sachs mopeds use a square Bing carburetor which differs slightly (other than the shape, obviously) from the round (Puch) Bing. Please note that SQUARE BING JETS ARE NOT THE SAME SIZE AS ROUND BING JETS. Square Bing jets are considered to be rare and hard-to-find.

#### **bing carburetors and parts - Treatland**

See Bing's manual on various strengths of the spring. The following was reported to me by Tom Cutter: Tom says the modification, installing a longer & softer spring on the slide, will smooth the idle transition at the 1/8th to 1/2 throttle movement. Tom said that the shorter, earlier spring, used on the 40 mm Bing CV carbs, was 13 11 1 335 324.
