Practical Strategies and Lesson Plans for Grades 2-8 Kendall Hunt
For many researchers, the need to present relevant and engaging material in the most effective way in an unfamiliar setting presents a potential barrier to their success as professionals. This handy guide tackles the obstacles to effective and successful presentations, considering the range of material which might be presented, the occasions which suit different types of material and the skills needed to present research in a way that is engaging and persuasive. This book addresses questions such as: Why should I give a paper and where might I give a paper? How does the conference system work? How do I prepare an abstract/outline/synopsis? How do I choose my material and prepare it for a conference presentation? How can I prepare effective conference aids? How can I overcome my nerves? How can I prepare and present effective posters for poster presentations? As with the other titles in the Success in Research series, this guide takes a hands-on approach and includes checklists, top tips, exercises and examples to help you remember what you have read and put it immediately to work! The Success in Research series, from Cindy Becker and Pam Denicolo, provides short, authoritative and accessible guides on key areas of professional and research development. Avoiding jargon and cutting to the chase of what you really need to know, these practical and supportive books cover a range of areas from presenting research to achieving impact, and from publishing journal articles to developing proposals. They are essential reading for any student or researcher interested in developing their skills and broadening their professional and methodological knowledge in an academic context.

Master's Thesis from the year 2017 in the subject American Studies - Literature, grade: 10, , course: Literature, language: English, abstract: This study focuses on the style of the author Nicholas Sparks in his two novels: " The Notebook " and " The best of me ". These two novels appeared at two important phases of his development as an author: the first one at the outset of his career and the other one at a time when he was already an acclaimed author. The main objectives are to analyze his style and to study its evolution over fifteen years by comparing his two masterpieces. In the end I summarize the main features of his style and draw conclusions about the development of his artistic creativity in general and his style in particular. Nowadays most of people read novels especially romantic novels but they read only the story as a preface without knowing the point of view, style, literary devices or tone etc. While reading a novel or a book, we must connect ourselves to the story or character or maybe to emotions in order to have that feeling. This study will concentrate in two novels of Nicholas Sparks, The Notebook and The best of me. Nicholas Sparks was born in Omaha, Nebraska on December 31, 1965, son of Patrick Michael (1942-1996) and Jill Emma Marie Sparks (1942-1989). During his childhood he moved around a lot with his family and lived in multiple locations like, Minnesota, Los Angeles, and Grand Island, Nebraska, finally settling in Fair Oaks, California at the age of eight. His father was a professor, his mother was a homemaker, then an optometrist ' s assistant. He lived in Fair Oaks until he finished high school, he graduated valedictorian in 1984, and received a full scholarship to the University of Notre Dame. Nicholas Sparks as a freshman was part of a relay team and broke the Notre Dame school record in 1985, a record which still stands, but he was injured and spent the summer recovering. During that summer, he wrote his first novel, but it was never published. Writing at the Woman ' s College, 1943 – 1963 Greenwood Publishing Group

There has been a terrible mistake. Instead of having thirty classrooms side by side, Wayside School is thirty storeys high! (The builder said he was sorry.) Perhaps that's why all sorts of strange and unusual things keep happening – especially in Mrs Jewls's classroom on the very top floor. There's the terrifying Mrs Gorf, who gets an unusually fruity comeuppance; Terrible Todd, who always gets sent home early; and Mauricia, who has a strange ice-cream addiction. Meanwhile, John can only read upside down, and Leslie is determined to sell her own toes. From top to bottom, Wayside is packed with quirky and hilarious characters who are all brought to life in this new edition with delightful illustrations by Aleksei Bitskoff throughout. This is an unmissable, irrepressible story of mixed-up mayhem from Louis Sachar, the bestselling author of Holes.

The basic problem is to what extent we can know past and mainly invisible landscapes, and how we can use this still hidden knowledge for actual sustainable management of landscape's cultural and historical values. It has also been acknowledged that heritage management is increasingly about 'the management of future change rather than simply protection'. This presents us with a paradox: to preserve our historic environment, we have to collaborate with those who wish to transform it and, in order to apply our expert knowledge, we have to make it suitable for policy and society. The answer presented by the Protection and Development of the Dutch Archaeological-Historical Landscape programme (pdl/bbo) is an integrative landscape approach which applies inter- and transdisciplinarity, establishing links between archaeological-historical heritage and planning, and between research and policy.

Throughout his career as composer, conductor, and pianist, Sergei Rachmaninoff (1873-1943) was an intensely private individual. When Bertensson and Leyda's 1956 biography appeared, it lifted the veil of secrecy on several areas of Rachmaninoff's life, especially concerning the genesis of his compositions and how he was affected by their critical reception. These pages are fabulously peopled. Here we find the Tchaikovsky brothers, Rimsky-Korsakov, Scriabin, Glazunov, and Stravinsky, as well as Chekhov, Stanislavsky, Chaliapin, Fokine, Hofmann, and Horowitz. This biography reflects

direct consultation with a number of people who knew Rachmaninoff, worked with him, and corresponded with him. Even with the availability of such sources and full access to the Rachmaninoff Archive at the Library of Congress, Bertensson, Leyda, and Satina (Rachmaninoff's cousin and sister-in-law) were tireless in their pursuit of privately held documents, particularly correspondence. The wonderfully engaging product of their labours masterfully incorporates primary materials into the narrative. Almost half a century after it first appeared, this volume remains essential reading. From the author of Alexander Hamilton, the New York Times bestselling biography that inspired the musical, comes a gripping portrait of the first president of the United States. Winner of the 2011 Pulitzer Prize for Biography "Truly magnificent . . . [a] well-researched, well-written and absolutely definitive biography" —Andrew Roberts, The Wall Street Journal "Until recently, I'd never believed that there could be such a thing as a truly gripping biography of George Washington . . . Well, I was wrong. I can't recommend it highly enough—as history, as epic, and, not least, as entertainment." —Hendrik Hertzberg, The New Yorker Celebrated biographer Ron Chernow provides a richly nuanced portrait of the father of our nation and the first president of the United States. With a breadth and depth matched by no other one volume biography of George Washington, this crisply paced narrative carries the reader through his adventurous early years, his heroic exploits with the Continental Army during the Revolutionary War, his presiding over the Constitutional Convention, and his magnificent performance as America's first president. In this groundbreaking work, based on massive research, Chernow shatters forever the stereotype of George Washington as a stolid, unemotional figure and brings to vivid life a dashing, passionate man of fiery opinions and many moods. Lin-Manuel Miranda's smash Broadway musical Hamilton has sparked new interest in the Revolutionary War and the Founding Fathers. In addition to Alexander Hamilton, the production also features George Washington, Thomas Jefferson, James Madison, Aaron Burr, Lafayette, and many more.

Realist Biography and European Policy is the first concerted attempt to integrate the separate strands of (critical) realism as a developed philosophy for social science with biographical narrative methods as a concrete methodological approach. The main goal is to demonstrate that the combination of critical realism and biographical methods is not only possible, but it is exceptionally well suited for the exploration of newly emerging research fields within European policy studies. This volume offers new insights to and is an indispensable reference for researchers in search of solid underpinnings for their own empirical research. “The most comprehensive and authoritative study of Washington’s military career ever written.” –Joseph J. Ellis, author of *His Excellency: George Washington* Based largely on George Washington’s personal papers, this engrossing book paints a vivid, factual portrait of Washington the soldier. An expert in military history, Edward Lengel demonstrates that the “secret” to Washington’s excellence lay in his completeness, in how he united the military, political, and personal skills necessary to lead a nation in war and peace. Despite being an “imperfect commander”—and at times even a tactically suspect one—Washington nevertheless possessed the requisite combination of vision, integrity, talents, and good fortune to lead America to victory in its war for independence. At once informative and engaging, and filled with some eye-opening revelations about Washington, the American Revolution, and the very nature of military command, *General George Washington* is a book that reintroduces readers to a figure many think they already know. “The book’s balanced assessment of Washington is satisfying and thought-provoking. Lengel gives us a believable Washington . . . the most admired man of his generation by far.” –The Washington Post Book World “A compelling picture of a man who was ‘the archetypal American soldier’ . . . The sum of his parts was the greatness of Washington.” –The Boston Globe “[An] excellent book . . . fresh insights . . . If you have room on your bookshelf for only one book on the Revolution, this may be it.” –The Washington Times

Studying people’s lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning. This book testifies how challenging and creative the study of these connections can be. It gathers international contributions that show, in imaginative ways, how a person’s life or specific domains of existence can be observed, tackled, and analysed across time. This volume reveals the potential of biographical research in the production of social theory, in the development of methodological innovation, in giving voice and protagonism to people, and in the understanding of the social unfolding of their lives. It is a testimony of a vibrant and youthful field, with a long tradition in social sciences, and with numerous connections with other study areas, namely the life course approach. The different chapters illustrate how the challenges posed by this type of research focused on the individual level of analysis are particular and what creative responses are required to continue analysing the link between biography and society. The chapters in this book were originally published as a special issue of the journal *Contemporary Social Science*.
