Read Now » Following in the successful footsteps of the "Anatomy" and the "Physiology Coloring Workbook", The Princeton Review introduces two new coloring workbooks to the line.

[Biology Coloring Workbook - I. Edward Alcamo - Google Books](#)

This one is from The Princeton Review and covers a lot of the same material as the HarperCollins edition. They both contain textual information on one page and a coloring page on the other. They both help students to affix the concepts of biology in mind, through coloring as they learn. The other one suggests specific colors for structures.

The Biology Coloring Workbook enables students to learn interactively by coloring which helps them memorize complex biological concepts. This unique study tool will help students not only memorize but also effectively review and quickly recall the facts and functions they learn throughout their study of biology.
