The Nelson Modular Science series is made up of three books divided into single, double and triple award modules presented in an accessible format. Book 1 covers the six single award and one coursework modules; Book 2 contains six double award modules; and Book 3 covers the six triple award modules. Each module is covered in self-contained units. This teacher's file includes practical support sheets and addresses Sc1 investigations. Works sheets are provided to integrate the use of ICT throughout science. Additional GCSE-style questions and modular tests should enhance learning and recall of information.

Cards--Workbook 1 of 3 John Wiley & Sons

As politicians, citizens, and families continue the raging national debate on whether it's proper to end human life in the womb, resources like Randy Alcorn's *Prolife Answers to Prochoice Arguments* have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a "sanctity of life" perspective. Real answers to real questions about abortion appear in logical and concise form. The final chapter -- "Fifty Ways to Help Unborn Babies and Their Mothers"-- is worth the price of this book alone!
