Masteringbiology with Etext --
Access Card Package Pearson

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the Mastering(tm) platforms exist for each title, and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If

purchasing or renting from companies other than Pearson, the access codes for the Mastering platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For non-majors biology courses This package includes Mastering Biology. Engage students in science with stories that relate to their lives Biology: Science for Life weaves a compelling storyline throughout each chapter to grab student attention through the

exploration of high-interest topics such as genetic testing, global warming, and the Zika virus. The authors return to the storyline again and again, using it as the basis on which they introduce the biological concepts behind each story. In the 6th Edition, new active learning features and author-created resources help instructors implement the storyline approach in their course. The Big Question is a new feature that helps students learn how to use data to determine what science can answer while developing their ability to critically evaluate information. Personalize learning with Mastering Biology Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and often improves results for each student. New to the 6th edition are author-created Figure Walkthrough videos that guide students to

solidify their understanding of the concepts within challenging illustrations as well as Make the Connection activities that help students bridge the gap between each storyline and the science behind it, as well as Ready-to-Go Teaching Modules for select chapters that provide instructors with assignments to use before and after class, as well as in-class activities. 0134794672 / 9780134794679 Biology: Science for Life with Physiology Plus MasteringBiology with Pearson eText -- Access Card Package

Package consists of:

Focus. Practice. Engage. Campbell Biology in Focus is the best-selling “short” textbook for the introductory college biology course for science majors. Every unit takes an approach to streamlining the material that best fits the needs of instructors, based on surveys, curriculum initiatives, reviews, discussions with hundreds of biology

professors, careful analyses of course syllabi, and the report *Vision and Change in Undergraduate Biology Education*. The Second Edition builds on the Campbell hallmark standards of accuracy, clarity, and pedagogical innovation, going beyond this foundation to help students make connections visually across chapters, interpret real data from research, and synthesize their knowledge. The accompanying digital resources include new, mobile-friendly tools that help instructors teach challenging topics better than ever before; integrate the eText with videos and animations; and allow students to test, learn, and retest until they achieve mastery of the content. Also Available with MasteringBiology™ This title is also available with MasteringBiology – an online homework, tutorial, and assessment product proven to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong-answer feedback and hints that emulate the office-hour experience and help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. New MasteringBiology activities for this edition include Interpret the Data Questions, which challenge students to analyze real data presented in a graph, figure or table, and Solve It Tutorials, which engage students in a multistep investigation of a scientific “mystery.” For instructors, new Ready-to-Go Teaching Modules provide easy-to-use

assignments for before and after class plus in-class activities with clicker questions and questions in Learning Catalytics™.

Biology: Life on Earth with Physiology Plus Masteringbiology with Etext -- Access Card Package Pearson

Intended for non-majors or mixed biology courses. Campbell Biology: Concepts & Connections continues to introduce pedagogical innovations, which motivate students not only to learn, but also engage with biology. This bestselling textbook is designed to help students stay focused with its hallmark modular organisation around central concepts and engages students in connections between concepts and the world outside of the classroom with Scientific Thinking, Evolution Connection and Connection essays in every chapter. The 9th Edition offers students a framework organised around fundamental biological themes and

encourages them to analyse visual representations of data with new Visualising the Data figures. A reorganised Chapter One emphasises the process of science and scientific reasoning, and robust instructor resources and multimedia allow students to engage with biological concepts in a memorable way. Unparalleled resources let instructors develop active and high interest lectures with ease.

For non-majors/mixed biology courses.

Helping students understand why biology matters Campbell Essential Biology makes biology interesting and understandable for non-majors biology students. This best-selling textbook, known for its scientific accuracy, clear explanations, and intuitive illustrations, has been revised to further emphasize the relevance of biology to everyday life, using memorable analogies, real-world examples, conversational language, engaging new Why Biology Matters photo essays, and more.

New MasteringBiology activities engage students outside of the classroom and help students develop scientific literacy skills. Also available with

MasteringBiology MasteringBiology is an

online homework, tutorial, and assessment product that improves results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature immediate wrong-answer feedback and hints that emulate the office-hour experience to help keep students on track. With a wide range of interactive, engaging, and assignable activities, many of them contributed by Essential Biology authors, students are encouraged to actively learn and retain tough course concepts. New MasteringBiology activities for this edition include “Essential Biology” videos that help students efficiently review key topics outside of class,

“Evaluating Science in the Media” activities that help students to build science literacy skills, and “Scientific Thinking” coaching activities that guide students in understanding the scientific method.

Biological Science Benjamin-Cummings Publishing Company

For non-majors biology courses Engage students in science with stories that relate to their lives Biology: Science for Life weaves a compelling storyline throughout each chapter to grab student attention through the exploration of high-interest topics such as genetic testing, global warming, and the Zika virus. The authors return to the storyline again and again, using it as the basis on which they introduce the biological concepts behind each story. In the 6th Edition, new active learning features and author-created resources help

instructors implement the storyline approach in their course. The Big Question is a new feature that helps students learn how to use data to determine what science can answer while developing their ability to critically evaluate information. Also available with Mastering Biology or as an easy-to-use, standalone Pearson eText Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and often improves results for each student. New to the 6th edition are author-created Figure Walkthrough videos that guide students to solidify their understanding of the concepts within challenging illustrations as well as Make the Connection activities that help students bridge the gap between each storyline and the science behind it, as well as Ready-to-Go

Teaching Modules for select chapters that provide instructors with assignments to use before and after class, as well as in-class activities. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class--motivating them to keep reading, and keep learning. Portable access lets students study on the go, even offline. And, reading analytics offer insight into how students use the eText, helping educators tailor their instruction. Note: You are purchasing a standalone product; Mastering Biology and Pearson eText do not come packaged with this content. majors. Uniquely engages biology students in active learning, scientific thinking, and skill development. Scott Freeman's Biological Science is beloved for its Socratic narrative style, its emphasis on experimental evidence, and its dedication to active learning. Science education research indicates that true mastery of content requires a move away from memorization towards active engagement with the material in a focused, personal way. Biological Science is designed to equip students with strategies to assess their level of understanding and identify the types of cognitive skills that need improvement. With the Sixth Edition, content has been streamlined with an emphasis on core concepts and core competencies from the Vision and Change in Undergraduate Biology Education report. The text's unique BioSkills section is now placed after Chapter 1 to help students develop key skills needed to become a scientist, new "Making Models" boxes guide learners in interpreting and creating models, and new "Put It all Together" case studies conclude each chapter and help students see connections between chapter content and current, real-world research questions. New, engaging content includes updated coverage of global climate change, advances in genetic editing, and recent insights into the evolution of land plants. Strong media Integration supports book features with MasteringBiology activities, Learning Catalytics™, and new whiteboard videos that guide students in completing "Making Models" assignments. Also

available with MasteringBiology™
MasteringBiology from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content and activities. Instructors ensure students arrive ready to learn by assigning educationally effective content before class and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors

access to rich data to assess student understanding and misconceptions. NOTE: You are purchasing a standalone product; MyLab™ & Mastering™ does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab & Mastering, search for: 0321993756 / 9780321993755 Biological Science Plus MasteringBiology with eText -- Access Card Package, 6/e Package consists of: 0134261992 / 9780134261997 MasteringBiology with Pearson eText -- ValuePack Access Card -- for Biological Science 0321976495 / 9780321976499

Biological Science

Campbell Biology, Third Canadian Edition
Pearson

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value-this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. xxxxxxxxxxxxxxxx For non-majors biology courses. This package includes MasteringBiology®. Compelling and relatable stories engage students in learning biology

Colleen Belk and Virginia Borden Maier have helped students understand biology for more than twenty years in the classroom and over ten years with their popular text, *Biology: Science for Life*. The thoroughly revised Fifth Edition engages students with new storylines that explore high-interest topics such as binge drinking, pseudoscience, and study drugs. The book and MasteringBiology resources also help students develop scientific skills using new Working With Data figure legend questions and addresses common misconceptions with Sounds Right, But Is It? discussions in each chapter. This edition also offers a wealth of new "Flipped Classroom" activities and other resources to help professors enliven their classes and to help students assess their understanding of biology outside of class. Personalize Learning with MasteringBiology MasteringBiology is an online homework, tutorial, and assessment product proven to

improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature personalized wrong-answer feedback and hints that emulate the office-hour experience and help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts. New assignment options for the Fifth Edition include Interactive Storyline activities, Working with Data questions, Savvy Reader: Evaluating Media activities, and more.
