This National Book Award finalist by Pulitzer Prize-winning novelist Louise

Erdrich is the first installment in an essential nine-book series chronicling 100 years in the life of one Ojibwe family, and includes beautiful interior black-and-white artwork done by the author. She was named Omakayas, or Little Frog, because her first step was a hop. Omakayas and her family live on an island in Lake Superior. Though there are growing numbers of white people encroaching on their land, life continues much as it always has. But the satisfying rhythms of their life are shattered when a visitor comes to their lodge one winter night, bringing with him an invisible enemy that will change things forever—but that will eventually lead Omakayas to

discover her calling. By turns moving and humorous, this novel is a breathtaking tour de force by a gifted writer. The beloved and essential Birchbark House series by Louise Erdrich includes *The Birchbark House*, *The Game of Silence*, *The Porcupine Year*, *Chickadee*, and *Makoons*.

Announcing the biggest, best, most innovative book ever on paper craft. Even better, this is not about how to use costly, artsy paper, but how to turn stuff around the house—magazines and shopping bags, candy wrappers and

paint sample cards, wrapping paper, old maps, and paper towel tubes—into stunning jewelry, gifts, home decor, party favors, and much more. Chances are you've seen the author's cutting-edge work in the windows of Anthropologie, where she is the chain's merchandising manager. crafts (remember snipping valentines out of construction paper?), and creates something completely transformative. Turn a sheaf of any white or graph paper into an amazing Scrap Happy Globe Lantern for the dining room. Fashion colored tissue paper into Songbird Votives, leftover raffle tickets into a Prizewinning Bowl, that outdated pile of holiday catalogs into a picture frame. There's a necklace made of playing cards, a gum wrapper bracelet, and barrettes made by

quilling—a paper technique that goes back to the Renaissance. Every project is photographed in full color, and includes step-by-step illustrations and instructions. Truly a book that shows how to think outside the (cardboard) box.

In Greenville, New Hampshire, a small town in the southern part of the state, Henri Vaillancourt makes birch-bark canoes in the same manner and with the same tools that the Indians used. The *Survival of the Bark Canoe* is the story of this ancient craft and of a 150-mile trip through the Maine woods in those graceful survivors of a prehistoric technology. It is a book squarely in the tradition of one written by the first tourist in these woods, Henry David Thoreau, whose *The Maine*

*Woods* recounts similar journeys in similar vessel. As McPhee describes the expedition he made with Vaillancourt, he also traces the evolution of the bark canoe, from its beginnings through the development of the huge canoes used by the fur traders of the Canadian North Woods, where the bark canoe played the key role in opening up the wilderness. He discusses as well the differing types of bark canoes, whose construction varied from tribe to tribe, according to custom and

---

available materials. In a style as pure and as effortless as the waters of Maine and the glide of a canoe, John McPhee has written one of his most fascinating books, one in which his talents as a journalist are on brilliant display.
