*Indecent Obsession* John Wilely & Sons

From the author of *A Rogue's Rescue* comes another Classic Regency Romance novella celebrating the world first introduced by Jane Austen. Strong-willed and intelligent, Lady Theresa is tired of spending her days listening to the gossipy village spinsters talk about the mysterious gentleman who just moved into the village. Known to be headstrong, and happily unattached, she takes it upon herself to call on the new resident and find out if the awful rumors about his family are true. The Honourable Mr. Martindale welcomes life as a recluse. A widower, he's made his fortune and now hopes to dedicate his time to working the land and raising his two young children—free of interference from the locals.

When Lady Theresa comes marching up to his door, it's the last thing Martindale wants, a husband hunter who thinks she can tell him how to raise his children and, worse, how he should comport himself. Yet before long Lady Theresa has worked her way into Martindale's quiet life and hatched an outrageous plan to win the village's approval for both the man and his unusual children. But what she fails to see is how badly the plan could backfire, or how it could jeopardize her own place in a family she has come to cherish—and in the heart of the man she has come to love.

This novella was originally published under the title "A Father's Love."

I'm the type of girl who's given up on fairy tales. So when Beck — the hot new busboy at work — starts flirting with me, I know better than to get my hopes up. Happily ever afters aren't for the average. I learned that the hard way. But how can I be expected to resist a man who can quote Austen, loves making me laugh, and

seems to be everything hot and good in this world? Only there's so much more to him than that. Billionaire playboy? Check. Troubled soul? Check. The owner of my heart, the man I've moved halfway across the country to be with, who's laying the world at my feet in order to convince me to never leave? Check. Check. Check. But nobody does complicated like the one percent. This is not your everyday rags-to-riches, knight-in-shining armor whisking the poor girl off her feet kind of story. No, this is much messier.

"This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up." As anyone who's

ever read Mark Dapin's column and features in *Good Weekend* knows, he's an immensely funny, acute and vivid observer of Australian life. In *Strange Country*, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

And maybe Cara wants them to . . . especially Hector, who seems to understand her like no one else
