Dim the lights. Lock the doors. Pull down the shades—and BEWARE! It's time to read the favorite scary stories of R.L. Stine, bestselling children's author and master of the spooky tale. R.L. Stine has gathered a selection of all things scary, and even added two

new tales of his own! Short stories, fables old and new, comics, and poems. It's a spine-tingling collection of work by dozens of writers and artists who are famous for hair-raising fun. Discover a ghastly secret in a retelling of the classic story "The Judge's House," by Bram Stoker. Peek into a Christmas stocking that holds a shocking surprise in a Vault of Horror comic, "A Sock for Christmas." Meet an ice-cream man who will chill your blood in "Mister Ice Cold" by Gahan Wilson. But first, visit an evil carnival in "The Black Ferris," by Ray Bradbury. R.L.

Stine says that this story changed his life! Be sure to read all the introductions—because R.L. reveals why he picked these stories just for you, and why he finds them the creepiest ... the funniest ... the scariest! BEWARE! 4 stars "A perfect spring awakening." —Good Housekeeping A true story of a unique friendship between two people who had nothing—and ultimately everything—in common. Carol Wall, a white woman living in a lily-white neighborhood in Middle America, was at a crossroads in her life. Her children were grown; she had successfully overcome illness; her beloved parents were getting older. One day

she notices a dark-skinned African man tending her neighbor's yard. His name is Giles Owita. He bags groceries at the supermarket. He comes from Kenya. And he's very good at gardening. Before long Giles is transforming not only Carol's yard, but her life. Though they are seemingly quite different, a caring bond grows between them. But they both hold long-buried secrets that, when revealed, will

cement their friendship forever. **Chaos & Creativity** Bowers & Merena Galleries Land the deals you want and develop your instincts with million-dollar negotiation techniques After selling over \$3 Billion in real estate, including the most expensive one-bedroom house in history, Josh Altman, co-star of the hit show Million-Dollar Listing Los Angeles, wants to teach you the real

The Washingtonienne Tata McGraw-Hill Education Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring

personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three regional schools. It soon became apparent that to properly

instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include

improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. This book analyses community rehabilitation needs from many different perspectives, including the views of disabled people, rehabilitation clinicians and service providers. Many examples of community

rehabilitation schemes are presented, with evidence for their effectiveness, and case studies are used to highlight the main issues. The authors take an international view, and there are chapters dealing with the disabled child in the community and with neuropsychological rehabilitation. This important book examines the growing trend towards community rehabilitation in neurology and is directed towards all clinicians

Hawaiki Rising
Random House
(UK)

Attuned to a
world of
natural
signs—the
stars, the
winds, the
curl of ocean
swells—Polynes-
ian explorers
navigated for
thousands of
miles without
charts or
instruments.
They sailed
against
prevailing
winds and
currents
aboard
powerful
double canoes
to settle the
vast Pacific
Ocean. And

they did this
when Greek
mariners still
hugged the
coast of an
inland sea, and
Europe was
populated by
stone-age
farmers. Yet by
the turn of the
twentieth
century, this
story had been
lost and
Polynesians had
become an
oppressed
minority in
their own land.
Then, in 1975,
a replica of an
ancient
Hawaiian canoe—
H?k?le'a—was
launched to
sail the
ancient star
paths, and help
Hawaiians
reclaim pride
in the
accomplishments

of their
ancestors.
Hawaiki Rising
tells this
story in the
words of the
men and women
who created and
sailed aboard
H?k?le'a. They
speak of
growing up at a
time when their
Hawaiian
culture was in
danger of
extinction; of
their vision of
sailing
ancestral sea-
routes; and of
the
heartbreaking
loss of Eddie
Aikau in a
courageous
effort to save
his crewmates
when H?k?le'a
capsized in a
raging storm.
We join a young
Hawaiian,

Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates H?k?le'a to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. Hawaiki Rising is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past. X/1999 Harpe rCollins
