Like every teen, Anna has secrets. Unlike every teen, Anna has a telepath for a father and Commerce City's most powerful businessperson for a mother. She's also the granddaughter of the city's two most famous superheroes, the former leaders of the legendary Olympiad, and the company car drops her off at the gate of her exclusive high school every morning. Privacy is one luxury she doesn't have. Hiding her burgeoning superpowers from her parents is hard enough; how's she supposed to keep them from finding out that her friends have powers, too? Or that she and the others are meeting late at night, honing their skills and dreaming of becoming Commerce City's next great team of masked vigilantes? Like every mother, Celia worries about her daughter. Unlike every mother, Celia has the means to send Anna to the best schools and keep a close watch on her, every second of every day. At least Celia doesn't have to worry about Anna becoming a target for every gang with masks and an agenda, like Celia was at Anna's age. As far as Celia knows, Anna isn't anything other than a normal teen. Still, just in case, Celia has secretly awarded scholarships at Anna's private high school to the descendants of the city's other superpowered humans. Maybe, just maybe, these teens could one day fill the gap left by the dissolution of The Olympiad....in Carrie Vaughn's Dreams of the Golden Age. The Gunslinger Born Penguin

For centuries herbs and spices have been an integral part of many of the world's great cuisines. But spices have a history of doing much more than adding life to bland foods. They have been the inspiration for, among other things, trade, exploration, and poetry. Priests employed them in worship, incantations, and rituals, and shamans used them as charms to ward off evil spirits. Nations fought over access to and monopoly of certain spices, like cinnamon and nutmeg, when they were rare commodities. Not only were many men's fortunes made in the pursuit of spices, spices at many periods throughout history literally served as currency. In Culinary Herbs and Spices of the World, Ben-Erik van Wyk offers the first fully illustrated, scientific guide to nearly all commercial herbs and spices in existence. Van Wyk covers more than 150 species—from black pepper and blackcurrant to white mustard and white ginger—detailing the propagation, cultivation, and culinary uses of each. Introductory chapters capture the essence of culinary traditions, traditional herb and spice mixtures, preservation, presentation, and the chemistry of flavors, and individual entries include the chemical compounds and structures responsible for each spice or herb's characteristic flavor. Many of the herbs and spices van Wyk covers are familiar fixtures in our own spice racks, but a few—especially those from Africa and China—will be introduced for the first time to American audiences. Van Wyk also offers a global view of the most famous use or signature dish for each herb or spice, satisfying the gourmand's curiosity for more information about new dishes from little-known culinary traditions. People all over the world are becoming more sophisticated and demanding about what they eat and how it is prepared. Culinary Herbs and Spices of the World will appeal to those inquisitive foodies in addition to gardeners and botanists.
