Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British

dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

A satirical comedy featuring Christopher Columbus, a tech billionaire, and a global delusion. Mel Winterbourne is the founder of a small, single-issue charity in the obscure field of mapmaking. Its success in achieving modest aims attracts the attention of handsome tech billionaire Joey Talavera, who evicts Mel and hijacks her charity for his own ends: to convince the world that the earth is flat. Although his chances of doing so seem slim, Flat Earthery is an idea whose time has come. With the historical reputation of Christopher Columbus in free-fall, old-style 'globularism' becomes heretical for a new generation of angry, anti-Establishment free-thinkers. Teachers, politicians, and celebrities face ruin if they refuse to sign up to the new orthodoxy. For Mel, something must be done. Teaming up with a pariah tabloid journalist and a faded writer of gross-out movie comedies, she sets out to challenge Talavera and his deranged

beliefs. Will history and the billionaire's own family origins be their unexpected ally? Using his trademark mix of history and satire to poke fun at modern foibles, Simon Edge is at his razor-sharp best in a caper that may be much more relevant than you think. **The World Is Flat 3.0** Oxford University Press

This Independence Day edition of **The World is Flat 3.0** includes an exclusive preview of **That Used to Be Us: How America Fell Behind in the World It Invented and How We Can Come Back**, by Thomas L. Friedman and Michael Mandelbaum, on sale September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller "One mark of a great book is that it makes you see things in a new way, and Mr. Friedman certainly succeeds in that goal," the Nobel laureate Joseph E. Stiglitz wrote in *The New York Times* reviewing **The World Is Flat** in 2005. In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis, and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters--on how to be a political activist and social entrepreneur in a flat world; and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures. **The World Is Flat 3.0** is an essential update on globalization, its opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks--environmental, social, and political, powerfully illuminated by the Pulitzer Prize--winning author of **The Lexus and the Olive Tree**. Name's Corcoran, Terrence Corcoran CQ Press A Library Journal Best Book of 2014: Historical Fiction The amazing power and truth of the Rapunzel fairy tale comes alive for the first time in this breathtaking tale of desire, black magic and the redemptive power of love French novelist Charlotte-Rose de la Force has been banished from the court of Versailles by the Sun King, Louis XIV, after a series of scandalous love affairs. At the convent, she is comforted by an old nun, Soeur Seraphina, who tells her the tale of a young girl who, a hundred years earlier, is sold by her parents for a handful of bitter greens... After Margherita's father steals parsley from the walled garden of the courtesan Selena Leonelli, he is threatened with having both hands cut off, unless he and his wife relinquish their precious little girl. Selena is the famous red-haired muse of the artist Tiziano, first painted by him in 1512 and still inspiring him at the time of his death. She is at the center of Renaissance life in Venice, a world of beauty and danger, seduction and betrayal, love and superstition. Locked away in a tower, Margherita sings in the hope that someone will hear her. One day, a young man does. Award-winning author Kate Forsyth braids together the stories of Margherita, Selena, and Charlotte-Rose, the woman who penned Rapunzel as we now know it, to create what is a sumptuous historical novel, an enchanting fairy tale retelling, and a loving tribute to the imagination of one remarkable woman.

In the early 1980s, two water-supply systems on the Marine Corps Base Camp Lejeune in

North Carolina were found to be contaminated with the industrial solvents trichloroethylene (TCE) and perchloroethylene (PCE). The water systems were supplied by the Tarawa Terrace and Hadnot Point watertreatment plants, which served enlisted-family housing, barracks for unmarried service personnel, base administrative offices, schools, and recreational areas. The Hadnot Point water system also served the base hospital and an industrial area and supplied water to housing on the Holcomb Boulevard water system (full-time until 1972 and periodically thereafter). This book examines what is known about the contamination of the water supplies at Camp Lejeune and whether the contamination can be linked to any adverse health outcomes in former residents and workers at the base.

Dei quindici anni più caldi mai avvertiti sul nostro pianeta quattordici si sono registrati nel xxi secolo. L'inquinamento da carbonio ha portato i gas serra ai picchi più alti dalla fine del Cretaceo. Una crisi finanziaria globale ha lasciato senza parole i cervelli meglio pagati al mondo. E ancora l'11 settembre, gli attacchi terroristici da Montreal a Manchester, la Brexit, i collassi nucleari, gli tsunami e gli uragani: di ragioni per pensare che tutto stia crollando ce ne sono parecchie. Eppure Ian Goldin e Chris Kutarna sono sicuri: questa è la Nuova età dell'oro. Proprio come nel Rinascimento, nella nostra epoca c'è un terreno estremamente fertile per la fioritura del genio, perché in nessun altro momento storico il rapporto tra scienza e tecnologia è stato così stretto. Vincere le sfide del presente e superare lo shock continuo prodotto dalla collisione tra realtà e aspettative significa allora strutturare una strategia che, presupponendo il fattore rischio come elemento

imprescindibile della natura del genio, attinga al passato per dirigere il presente e orientare il futuro. Goldin e Kutarna ripercorrono quindi la storia delle scoperte geografiche, delle rivoluzioni scientifiche e artistiche che hanno caratterizzato l'età moderna e le confrontano con l'attualità: come Gutenberg e la stampa, Zuckerberg e i social media contribuiscono a diffondere la conoscenza; il crollo del muro di Berlino e la globalizzazione hanno abbattuto barriere e consentito di varcare confini prima invalicabili in misura pari alla scoperta di Cristoforo Colombo; i flussi migratori di oggi, spesso determinati da movimenti geopolitici radicati nella religione, ricordano quelli provocati in Europa dalla scissione tra Chiesa cattolica e Chiesa riformata. Se è vero che il presente non è una ripetizione di quanto già accaduto, è pur vero che l'umanità non si reinventa a ogni generazione e che, a dirla con Machiavelli, per prevedere il futuro bisogna consultare il passato. Nuova età dell'oro è lo strumento necessario per conquistare una visuale più ampia, calibrare speranza e determinazione, promuovere un progresso finalmente sostenibile. Perché è tempo che economia e cultura entrino in un secondo Rinascimento.
