"Fairies Afield" is a children's fantasy story written by Mary Louisa Molesworth, a well-known English children's author in the late nineteenth and early twentieth century. The book, published in 1902, is part of Molesworth's wide body of work, which includes a number of novels and stories for children. The story follows two siblings, Tottie and Tittie, as they go on a fantastic journey into the world of fairies. The children discover a secret road in the woods that leads them to the world of the fairies, where they meet a variety of wonderful creatures and participate in quirky and enchanting adventures. The kids become friends with fairies, elves, and other mystical creatures as they explore this magical realm. Like children's books from the Victorian and Edwardian eras, the story is full with endearing moments and soft moral messages. The narratives of Molesworth highlight kindness, amazement, and inventiveness. "Fairies Afield" perfectly encapsulates the essence of beloved children's books with its themes of friendship, magic, and youthful innocence. For those who appreciate classic stories of magic and adventure, the novel is still enjoyable.

Originally published in London in 1931 by the R.I.L.U. (Red International of Labour Unions) Magazine for the International Trade Union Committee of Negro Workers, this publication had three purposes: "To briefly set forth some of the conditions of life of the Negro workers and peasants in different parts of the world; to enumerate some of the struggles which they have attempted to wage in order to free themselves from the yoke of imperialism; and, to indicate in a general way the tasks of the proletariat in the advanced countries so that the millions of black toilers might be better prepared to carry on the struggles against their white imperialist oppressors and native (race) exploiters, and join forces with their white brothers against the common enemy-World Capitalism."

Across the borderlands of the early American northeast, New England, New France, and Native nations deployed women with surprising frequency to the front lines of wars that determined control of North America. Far from serving as passive helpmates in a private, domestic sphere, women assumed wartime roles as essential public actors, wielding muskets, hatchets, and makeshift weapons while fighting for their families, communities, and nations. Revealing the fundamental importance of martial womanhood in this era, Gina M. Martino places borderlands women in a broad context of empire, cultural exchange, violence, and nation building, demonstrating how women's war making was embedded in national and imperial strategies of expansion and resistance. As Martino shows, women's participation in warfare was not considered transgressive; rather it was integral to traditional gender ideologies of the period, supporting rather than subverting established systems of gender difference. In returning these forgotten women to the history of the northeastern borderlands, this study challenges scholars to reconsider the flexibility of gender roles and reveals how women's participation in transatlantic systems of warfare shaped institutions, polities, and ideologies in the early modern period and the centuries that followed.
