A history of the countries bordering the Black Sea told through the stories of the people who live there.

Fringing the Black Sea is a diverse array of countries, some centuries old

and others emerging only after the collapse of the Soviet Union. Jens Mühling travels through this region, telling the stories of people he meets along the way in order to paint a picture of the mix of cultures found here and to present against a history stretching back to the arrival of Ancient Greek

settlers and beyond. A fluent Russian speaker with a knack for gaining the trust of those he meets, Mühling brings together a cast of characters as diverse as the stories he hears, all of whom are willing to tell him their complex, contradictory, and often fantastical tales full of grief and legend. He meets descendants

of the so-called Pontic Greeks, whom Stalin deported to Central Asia and who have now returned; Circassians who fled to Syria a century ago and whose great-great-grandchildren have returned to Abkhazia; and members of ethnic minorities like the Georgian Mingrelians or Bulgarian Muslims,

expelled to Turkey in the summer of 1989. Mühling captures the region's uneasy alliance of tradition and modernity and the diverse humanity of those who live there.

America’s criminal justice

unprecedented, exclusive access to family archives, award-winning journalist and biographer Andrew Meier vividly chronicles how the Morgenthau family amassed a fortune in Manhattan real estate, advised presidents, advanced the New Deal, exposed the Armenian genocide, rescued victims of the Holocaust, waged war in the Mediterranean and Pacific, and, from a foundation of private wealth, built a dynasty of public service. In the

words of former mayor Ed Koch, they were “the closest we’ve got to royalty in New York City.” Lazarus Morgenthau arrived in America dreaming of rebuilding the fortune he had lost in his homeland. He ultimately died destitute, but the family would rise again with the ascendance of Henry, who became a wealthy and powerful real estate baron. From there, the Morgenthau family went on to influence the most consequential presidency

of the twentieth century, as Henry’s son Henry Jr. became FDR’s longest-serving aide, his Treasury secretary during the war, and his confidant of thirty years. Finally, there was Robert Morgenthau, a decorated World War II hero who would become the longest-tenured district attorney in the history of New York City. Known as the “DA for life,” he oversaw the most consequential and controversial prosecutions in New York of the last fifty

years, from the war on the Mafia to the infamous Central Park Jogger case. The saga of the Morgenthau has lain half hidden in the shadows for too long. At heart a family history, Morgenthau is also an American epic, as sprawling and surprising as the country itself. Troubled Water: A Journey Around the Black Sea Harmony A bold exposé of the controversial secret that has potentially dire consequences in many African American communities. Delivering the first frank and thorough investigation of life “on the down low” (the DL), J. L. King exposes a closeted culture of sex between black men who lead

“ straight ” lives. King explores his own past as a DL man, and the path that led him to let go of the lies and bring forth a message that can promote emotional healing and open discussions about relationships, sex, sexuality, and health in the black community. Providing a long-overdue wake-up call, J. L. King bravely puts the spotlight on a topic that has until now remained dangerously taboo. Drawn from hundreds of interviews, statistics, and

the author ’ s firsthand knowledge of DL behavior, On the Down Low reveals the warning signs African American women need to know. King also discusses the potential health consequences of having unprotected sex, as African American women represent an alarming 64 percent of new HIV infections. Volatile yet vital, On the Down Low is sure to be one of the most talked-about books of the year. “ A survey by the Centers for Disease

Control in Atlanta found that nearly a quarter of black HIV-positive men who had sex with men consider themselves heterosexual. ” —Essence Today I Learned Beckham Publications Group, Inc. An in-depth exploration of Ukraine through encounters with the

many different people who live there. "Will someone pay for the spilled blood? No. Nobody." Mikhail Bulgakov composed this ominous and prophetic phrase in Kiev amid the turmoil of the Russian civil war. Since then, Ukrainian borders have shifted constantly, and its people have suffered numerous military foreign interventions. Ukraine has only existed as an independent state since 1991, and what exactly it was before then is controversial among its

people as well as its European neighbors. In *Black Earth: A Journey through the Ukraine*, journalist and celebrated travel writer Jens Mü hling takes readers across the country amid the ousting of former president Viktor Yanukovych and the Russian annexation of Crimea. Mü hling delves deep into daily life in Ukraine, narrating his encounters with Ukrainian nationalists and old communists, Crimean Tatars and Cossacks,

smugglers, and soldiers. Black Earth connects all these stories to convey an unconventional and unfiltered view of Ukraine, a country at the crossroads of Europe and Asia and the center of countless conflicts. In this paperback edition, a new preface is included that takes into account recent developments up to the 2022 war between Russia and Ukraine.

CRAZY A MEMOIR is a humorous, adventuresome romp about weed smuggling

in the seventies and eighties. The author chronicles his early life in San Antonio and the influence of the growing drug culture during his teen years. He then comically depicts his required military service as a "tie-dyed hippie in army greens" and his determined attempts to stay out of Viet Nam. Lost and unsure about life following the drug related deaths of most of his friends, he later hitchhikes around Mexico and ends up attending college in Cholula where he begins his career in weed smuggling. His entrepreneurial efforts in

this area are humorously described in great detail. The book captures a slice of time, tying in political and cultural events with the author's concomitant psychological development during the hippie movement as well as his evolving career as a drug smuggler for the Cause.

Crazy CreateSpace NEW YORK TIMES BESTSELLER • The “exquisitely researched and deeply engrossing” (The New York Times) true survival story of an early polar expedition that went terribly awry—with the ship frozen in ice and

the crew trapped inside for the entire sunless, Antarctic winter “The energy of the narrative never flags. . . . Sancton has produced a thriller.” —The Wall Street Journal In August 1897, the young Belgian commandant Adrien de Gerlache set sail for a three-year expedition aboard the good ship Belgica with dreams of glory. His destination was the uncharted end of the earth: the icy continent

of Antarctica. But de Gerlache's plans to be first to the magnetic South Pole would swiftly go awry. After a series of costly setbacks, the commandant faced two bad options: turn back in defeat and spare his men the devastating Antarctic winter, or recklessly chase fame by sailing deeper into the freezing waters. De Gerlache sailed on, and soon the Belgica was stuck fast in the icy hold of the Bellingshausen Sea. When the sun set on the magnificent polar landscape one last time, the ship's occupants were condemned to months of endless night. In the darkness, plagued by a mysterious illness and besieged by monotony, they descended into madness. In *Madhouse at the End of the Earth*, Julian Sancton unfolds an epic story of adventure and horror for the ages. As the Belgica's men teetered on the brink, de Gerlache relied increasingly on two young officers whose friendship had blossomed in captivity: the expedition's lone American, Dr. Frederick Cook—half genius, half con man—whose later infamy would overshadow his brilliance on the Belgica; and the ship's first mate, soon-to-be legendary Roald

Amundsen, even in his youth the storybook picture of a sailor. Together, they would plan a last-ditch, nearly certain-to-fail escape from the ice—one that would either etch their names in history or doom them to a terrible fate at the ocean's bottom. Drawing on the diaries and journals of the Belgica's crew and with exclusive access to the ship's logbook, Sancton brings novelistic flair to a

story of human extremes, one so remarkable that even today NASA studies it for research on isolation for future missions to Mars. Equal parts maritime thriller and gothic horror, *Madhouse at the End of the Earth* is an unforgettable journey into the deep. Free Roll Doubleday Canada
