Born in 1830, Christina Rossetti began composing verse at the age of eleven and continued to write for the remaining fifty-three years of her life. Her brother Dante Gabriel Rossetti, himself a poet and painter, soon recognized her genius and urged her to publish her poems. By the time of her death in 1894, Christina had written more than eleven hundred poems and had published over nine hundred of them. Although she is regarded as the greatest woman poet of the Victorian period, there has not been until now and authoritative edition of her poetry. In this second volume of the three-volume *The Complete Poems of Christina Rossetti*, R.W. Crump continues the editorial standards she established in Volume I, published in 1979. She gives the reader a comprehensive text with notes revealing Christina's process of composition and revision and her painstaking concern for the technical details of her work. The variant readings in the notes are taken from extant manuscripts, individual poems as published or privately printed before being incorporated into her published collections, and all the English and American editions of her poems through William Michael Rossetti's *The Poetical Works of Christina Georgina Rossetti* (1904). A special feature of both Volumes I and II is a complete list of holographs and their locations. Volume II contains *Sing-Song: A Nursery Rhyme Book* (1872), *A Pageant and Other Poems* (1881), and *Verses* (1893), as well as the poems added to these volumes after their original publication. Volume III contains poems Christina published but did not include in any of her collections as well as poems that have not previously appeared in print.

An NPR Book Concierge Best Book of 2018! A Sunday Times of London Pick of the Paperbacks A stunning Best story about how power works in the modern age--the book the New York Times called "one helluva page-turner" and The Sunday Times of London celebrated as "riveting...an astonishing modern media conspiracy that is a fantastic read." Pick up the book everyone is talking about. In 2007, a short blogpost on Valleywag, the Silicon Valley-vertical of Gawker Media, outed PayPal founder and billionaire investor Peter Thiel as gay. Thiel's sexuality had been

known to close friends and family, but he didn't consider himself a public figure, and believed the information was private. This post would be the casus belli for a meticulously plotted conspiracy that would end nearly a decade later with a \$140 million dollar judgment against Gawker, its bankruptcy and with Nick Denton, Gawker's CEO and founder, out of a job. Only later would the world learn that Gawker's demise was not incidental--it had been masterminded by Thiel. For years, Thiel had searched endlessly for a solution to what he'd come to call the "Gawker Problem." When an unmarked envelope delivered an illegally recorded sex tape of Hogan with his best friend's wife, Gawker had seen the chance for millions of pageviews and to say the things that others were afraid to say. Thiel saw their publication of the tape as the opportunity he was looking for. He would come to pit Hogan against Gawker in a multi-year proxy war through the Florida legal system, while Gawker remained confidently convinced they would prevail as they had over so many other lawsuit--until it was too late. The verdict would stun the world and so would Peter's ultimate unmasking as the man who had set it all in motion. Why had he done this? How had no one discovered it? What would this mean--for the First Amendment? For privacy? For culture? In *Holiday's* masterful telling of this nearly unbelievable conspiracy, informed by interviews with all the key players, this case transcends the narrative of how one billionaire took down a media empire or the current state of the free press. It's a study in power, strategy, and one of the most wildly ambitious--and successful--secret plots in recent memory. Some will cheer Gawker's destruction and others will lament it, but after reading these pages--and seeing the access the author was given--no one will deny that there is something ruthless and brilliant about Peter Thiel's shocking attempt to shake up the world.

### Angela's Ashes HarperCollins UK

In her new novel, Christina Hesselholdt delves into the world of the enigmatic American photographer, Vivian Maier (1926-2009), whose unique photographic body of work only reached the public by chance. On the surface, Vivian Maier lived a quiet life as a loving, firm and feisty nanny for wealthy families in Chicago and New York. But throughout four decades, she took more than 150,000 photos, mainly with Rollicflex cameras. The pictures were only discovered in an auction shortly before she died, impoverished and feebly very lonely. In a time when self-obsession and representation are at an all-time high, Vivian Maier holds a particular fascination. Who was this eccentric person? And why did she not try to make a living from her art? In *Vivian*, a chorus of voices, including Vivian's own, address these questions. We watch Vivian grow up in a severely dysfunctional family in New York and Champsaur in France, and we follow her as a nanny in Chicago and as a photographer on the streets of these American cities and in rural France. The novel comprises multiple voices: Vivian's, her mother's, one of the children she looked after and her parents. And crucially, the voice of the inquisitive narrator, who pulls the threads together and asks Vivian prying questions.
