The New York Times–bestselling first-hand account of a Delta Force commando's hunt for the Al-Qaida leader in the months after 9/11. The mission was to kill the most wanted man in the world—an operation of such magnitude that it couldn't be handled by just any military or intelligence force. The best America had to offer was needed. As such, the task was handed to roughly forty members of America's supersecret counterterrorist unit formally known as 1st Special Forces Operational Detachment-Delta; more popularly, the elite and mysterious unit Delta Force. Told by senior ranking military officer Dalton Fury, this is the real story of the operation, the first eyewitness account of the Battle of Tora Bora, and the first book to detail

#### **Chosen Soldier** Granada Learning

One of the most highly regarded special operations soldiers in American military history shares his war stories and personal battle with PTSD. As a senior non-commissioned officer of the most elite and secretive special

operations unit in the U.S. military, Command Sergeant Major Tom Satterly fought some of this country's most fearsome enemies. Over the course of twenty years and thousands of missions, he's fought desperately for his life, rescued hostages, killed and captured terrorist leaders, and seen his friends maimed and killed around him. All Secure is in part Tom's journey into a world so dark and dangerous that most Americans can't contemplate its existence. It recounts what it is like to be on the front lines with one of America's most highly trained warriors. As action-packed as any fiction thriller, All Secure is an insider's view of "The Unit." Tom is a legend even among other Tier One special operators. Yet the enemy that cost him three marriages, and ruined his health physically and psychologically, existed in his brain. It nearly led him to kill himself in 2014; but for the lifeline thrown to him by an extraordinary woman it might have ended there. Instead, they took on Satterly's most important mission—saving the lives of his brothers and sisters in arms who are killing themselves at a rate of more than twenty a day. Told through Satterly's firsthand experiences, it also weaves in the reasons—the bloodshed, the deaths, the intense moments of sheer terror, the survivor's guilt, depression, and substance abuse—for his career-long battle against the most insidious enemy of all: Post Traumatic Stress. With the help of his wife, he learned that by admitting his weaknesses and faults he sets an example for other combat veterans struggling to come home.

The true story of one of the most dramatic and sustained special operations in military history. When American and British forces invaded Iraq in March 2003, select teams of special forces and intelligence operatives got to work looking for the WMD their governments had promised were there. They quickly realized no such weapons existed. Instead they faced an insurgency—a soaring spiral of extremism and violence that was almost impossible to understand, let alone reverse. Facing defeat, the Coalition waged a hidden war within a war. Major-General Stan McChrystal devised a campaign fusing special forces, aircraft, and the latest surveillance technology with the aim of taking down the enemy faster than it could regenerate. Guided by intelligence, British and American special forces conducted a relentless onslaught, night after night targeting al-Qaeda and other insurgent groups. Mark Urban's Task Force Black reveals not only the intensity of the secret fight that turned the tide in Baghdad but the rivalries and personal battles that had to be overcome along the way. Incisive, dramatic, exceptionally revealing, the war in Iraq cannot be understood without this book.
