The President wants answers quickly, and after Kolt Raynor saved his life a few months earlier, he knows Delta Force is fully capable. But Kolt is on the verge of getting forced out of JSOC for disobeying orders in Pakistan—and when he's offered a slot in Tungsten, an ultra-secret deep-cover organization, he jumps at the chance. Now his task is to infiltrate al Qaeda and prevent this deep-cover terror cell from making their plot a reality before it's too late. The only insider's account ever written on America's most powerful weapon in the war against terrorism

Relentless Strike Crown

When British and American forces invaded Iraq in April 2003, their intelligence operations got to work looking for the WMD their governments had promised us were there. They quickly realised no such weapons existed. Instead

they become faced with an ever-increasing spiral of extremism and violence that was almost impossible to understand, let alone contain. This book tells the story of what happened next, one of the most dramatic and sustained operations in our recent military history. Up against the wall, under the aegis of the joint forces commanded by Major General McChrystal, our men moved into action using the wide variety of aircraft and weaponry at their disposal. Combining intelligence with brute force, the SAS went on the attack, night after night targeting Al-Qaeda and other insurgent groups with an intensity never before practiced by the service, destroying the terrorist threat and saving lives.

"In the world of black-op thrillers, Mitch Rapp continues to be among the best of the best" (Booklist, starred review), and he returns in the #1 New York Times bestselling series alone and targeted by a country that is supposed to be one of America's closest allies. After 9/11, the United States made one of the most secretive and dangerous deals in its history—the evidence against the powerful Saudis who coordinated the attack would be buried and in return, King Faisal would promise to keep the oil flowing and deal with the conspirators in his midst. But when the king's own nephew is discovered funding ISIS, the furious President gives Rapp his next mission: he must find out more about the high-level Saudis involved in the scheme and kill them. The catch? Rapp will get no support from the United States. Forced to make a decision that will change his life forever, Rapp quits the CIA and assembles a group of independent contractors to help him complete the mission. They've barely begun unraveling the connections between the Saudi government and ISIS when the brilliant new head of the intelligence directorate discovers their efforts. With Rapp getting too close, he threatens to go public with the details of the post-9/11 agreement between the two countries. Facing an

international incident that could end his political career, the President orders America's intelligence agencies to join the Saudis' effort to hunt the former CIA man down. Rapp, supported only by a team of mercenaries with dubious allegiances, finds himself at the center of the most elaborate manhunt in history. With white-knuckled twists and turns leading to "an explosive climax" (Publishers Weekly), *Enemy of the State* is an unputdownable thrill ride that will keep you guessing until the final page.

Master Sergeant (Ret.) George E. "Chik" Hand IV, better known as geo to the public. geo served for 10 years with the 1st Special Forces Operational Detachment-Delta, colloquially known as Delta Force. As the U.S. Army's premier counterterrorism, hostage rescue, and direct action Special Missions Unit (SMU), Delta Force has been at the tip of the spear of the American military ever since the Iranian hostage crisis in 1979. To serve there, a man has to climb physical and mental mountains; to remain there, a man has to show remarkable consistency and professionalism. Before his assignment to Delta, geo served in the 7th and 1st Special Forces Groups as a Green Beret. A rare wordsmith, geo is a master of the English language. But, it takes more than that to create a compelling memoir, especially one so heavily focused on others. Indeed, it takes empathy and emotional intellect. By empathizing with his subjects, geo puts you right next to them. You can see them breaching a door; you can smell their sweat after an operation; you can hear the radio chatter and the Little Bird helicopters whooping above; you can sense the joke that's about to crack and send everyone rolling; you can feel the pain of loss and the emptiness that death carves. That's why readers of all ages and walks of life rally around his stories.

This is my personal journey through one of the greatest warrior and leadership cultures of today, which ultimately provided me with defining leadership characteristics and the skills of a serious warrior. Nobody is born a great leader, they are made through hard work and determination. My first Indian name given to me by the medicine man when I was a child was Bobcat. As I grew and became a young man, I returned home from my first combat experience and was given my warrior's name, Evergreen Mountain. I am an American, first and foremost, but I am also a Pueblo and Yaqui Indian. I am a former member of the US Army's 18th Airborne Corps, 75th Ranger Regiment, and spent most of my career as an operational member of a Special Missions Unit under the United States Army Special Operations Command. These are some of my most important leadership lessons learned from the battlefield of the war on terror. It is my sincere hope that this book serves as a resource and a compass, providing direction and guidance for individuals seeking or in a leadership position.
