The New York Times – bestselling, “engrossing account of the military operation that resulted in the death of Osama bin Laden” (Kirkus Reviews, starred). On May 2, 2011, at 1:03 a.m. a satellite uplink crackled from Abbottabad, Pakistan, into the situation room of the White House in Washington, D.C.: “Geronimo, Echo, KIA.” These words, spoken by a Navy SEAL, ended Osama bin Laden’s three-decade-long career of terror. SEAL Target Geronimo is the story of Bin Laden’s relentless hunters and how they took down the terrorist mastermind, told by Chuck Pfarrer, a former commander of SEAL Team Six and author of the bestselling *Warrior Soul: The Memoir of a Navy SEAL*. After talking to members of the SEAL team involved in the raid, Pfarrer shares never-before-revealed of the historic raid and the men who planned and conducted it in an exclusive boots-on-the-ground account of what happened during each minute off the mission—both inside the building and outside. Pfarrer takes readers inside the operations as the SEALs flew over the wall of Bin Laden’s shabby, litter-strewn compound and then penetrated deeper and deeper into the terrorist lair, telling us just what it looked, sounded, and smelled like in that sweltering Pakistani suburb. He takes us out to the courtyard to witness the near-disaster of the malfunctioning helicopter and brings us to the exact spot where the Al Qaeda leader was cowering when the bullet entered his head. SEAL Target Geronimo is an explosive story of unparalleled valor, clockwork military precision, and deadly accuracy carried out by the most elite fighting force in the world—the US Navy’s SEAL Team Six. Denounced by the Pentagon when it was first published, SEAL Target Geronimo is back in a new edition with added information about the raid, a new afterword, and never-before-seen photos. Praise for SEAL Target Geronimo “The book is more than just a high-adventure black-ops thriller. It is a work of historical importance that sets the record straight.” —Neil W. McCabe, *Human Events* “Pfarrer certainly had access. . . . He clearly had detailed conversations with senior officers in the SEALs’ chain of command. . . . and understands the vocabulary and culture very well. . . . SEAL Target Geronimo explodes a number of media myths about the raid to kill Bin Laden.” —Richard Minter, *The Daily Beast*

An unprecedented view of Green Beret training, drawn from the year Dick Couch spent at Special Forces training facilities with the Army’s most elite soldiers. In combating terror, America can no longer depend on its conventional military superiority and the use of sophisticated technology. More than ever, we need men like those of the Army Special Forces—the legendary Green Berets. Following the experiences of one class of soldiers as they endure this physically and mentally exhausting ordeal, Couch spells out in fascinating detail the demanding selection process and grueling field exercises, the high-level technical training and intensive language courses, and the simulated battle problems that test everything from how well SF candidates gather operational intelligence to their skills at negotiating with volatile, often hostile, local leaders. Chosen Soldier paints a vivid portrait of an elite group, and a process that forges America’s smartest, most versatile, and most valuable fighting force.

Already winning acclaim as one of the best accounts of combat ever written, *Black Hawk Down* is a minute-by-minute, heart-stopping account of the 1993 raid on Mogadishu, Somalia. Late in the afternoon of Sunday, October 3 1993, 140 elite US Soldiers abseiled from helicopters into a teeming market neighbourhood in the heart of the city. Their mission was to abduct two top lieutenants of a Somali warlord and return to base. It was supposed to take them about an hour. Instead, they were pinned down through a long and terrible night in a hostile city, fighting for their lives against thousands of heavily armed Somalis. Two of their high-tech helicopters were shot out of the sky. When the unit was rescued the

following morning, eighteen American soldiers were dead and more than seventy badly injured. The Somali toll was far worse - more than five hundred killed and over a thousand injured. Authoritative, gripping, and insightful, *Black Hawk Down* is destined to become a classic of war reporting. It is already the most accurate, detailed account of modern combat ever written.

This is the inside story of the first, thwarted mission to find and kill the most wanted man in the world — an operation of such magnitude that it couldn't be handled by just any military or intelligence force. The best America had to offer was needed. As such, the task was handed to roughly forty members of America's supersecret counterterrorist unit formerly known as 1st Special Forces Operational Detachment-Delta; more popularly, the elite and mysterious unit Delta Force. Delta's orders were to go into harm's way and prove to the world that Osama bin Laden had been terminated. These Delta warriors had help: a dozen of the British Queen's elite commandos, another dozen or so Army Green Berets, and six intelligence operatives from the CIA who laid the groundwork by providing cash, guns, bullets, intelligence, and interrogation skills to this clandestine military force. Together, this team waged a modern siege of epic proportions against bin Laden and his seemingly impenetrable cave sanctuary burrowed deep inside the Spin Ghar Mountain range in eastern Afghanistan. Over the years, since the battle ended, scores of news stories have surfaced offering tidbits of information about what actually happened at Tora Bora. Most of it is conjecture and speculation. This is the real story of that operation, the first eyewitness account of the Battle of Tora Bora. It details just how close Delta Force came to capturing bin Laden the first time around, how close US bombers and fighter aircraft came to killing him, and exactly why he slipped through the US's fingers. Lastly, this is an extremely rare account of the shadowy world of Delta Force, and a detailed account of these warriors in battle. This latest edition has been released with a new introduction written by the author, dealing with bin Laden's killing by SEAL Team Six on 2 May 2011.

“In the world of black-op thrillers, Mitch Rapp continues to be among the best of the best” (Booklist, starred review), and he returns in the #1 New York Times bestselling series alone and targeted by a country that is supposed to be one of America's closest allies. After 9/11, the United States made one of the most secretive and dangerous deals in its history—the evidence against the powerful Saudis who coordinated the attack would be buried and in return, King Faisal would promise to keep the oil flowing and deal with the conspirators in his midst. But when the king's own nephew is discovered funding ISIS, the furious President gives Rapp his next mission: he must find out more about the high-level Saudis involved in the scheme and kill them. The catch? Rapp will get no support from the United States. Forced to make a decision that will change his life forever, Rapp quits the CIA and assembles a group of independent contractors to help him complete the mission. They've barely begun unraveling the connections between the Saudi government and ISIS when the brilliant new head of the intelligence directorate discovers their efforts. With Rapp getting too close, he threatens to go public with the details of the post-9/11 agreement between the two countries. Facing an international incident that could end his political career, the President orders America's intelligence agencies to join the Saudis' effort to hunt the former CIA man down. Rapp, supported only by a team of mercenaries with dubious allegiances, finds himself at the center of the most elaborate manhunt in history. With white-knuckled twists and turns leading to “an explosive climax” (Publishers Weekly), *Enemy of the State* is an unputdownable thrill ride that will keep you guessing until the final page.
