This book is an illustrated guide to assistive technologies and devices (AT/AD). It chronicles the use of AT/AD - technology used by individuals with disabilities to perform functions that might otherwise be difficult or impossible. In general, AT can include mobility devices such as walkers and wheelchairs, as well as hardware, software, and peripherals that assist people with disabilities in accessing computers or other information technologies. Advanced AT has coincided with the advent of personal electronic devices that could be customized for use, such as computers and smart phones. For people with disabilities, AT includes simple gadgets for the home and office, electronic gadgets and complex computer systems for the workplace, mobility aids and accessible vans for getting around and modified equipment for lifestyle needs, such as talking ATMs and strobe light alarm systems. This book empowers people with disabilities to use assistive technologies to overcome some of their physical or mental limitations and have a more equal playing field. It includes real-life examples about how people with disabilities are using assistive technology (AT) to assist them in daily tasks, and discusses emotional issues related to AT/AD.

Business failure is not limited to start ups. In America alone between 1990 and 2000, there were over 6.3 million business start-ups and over 5.7 million business shut-downs. Risk of failure can be greatly reduced through effective organisational design that encourages high performance and adaptability to changing circumstances. Organisation design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success. This new Economist guide explores the five principles of effective organisation design, which are that it must be: driven by the business strategy and the operating context (not by a new IT system, a new leader wanting to make an impact, or some other non-business reason). involve holistic thinking about the organisation be

for the future rather than for now not to be undertaken lightly—it is resource intensive even when going well be seen as a fundamental process not a repair job. (Racing cars are designed and built. They are then kept in good repair.)

If you thought that the app market was just about games and big brands, think again. Businesses of every size in every sector have built their own apps and are reaping real commercial rewards. Because of the relatively low cost of entering the app market, smaller enterprises can level the playing field, often outstripping their larger competitors simply because they have developed and marketed an app that delivers a service that their consumers are looking for. This book isn't about how apps can help you run your business more efficiently, or an in-depth tutorial about how to create an app for your enterprise. Instead, it provides a unique introduction and overview of the possibilities for any small or growing business. It's a focused guide about the business of apps for those whose time is money. Connecting with customers over their mobile phones and tablets allows a more intimate and ultimately more lucrative link between businesses and consumers to be established. With this latest book in the popular Business Bites series, you can help your business take the first steps into an exciting and growing marketplace.

Brianna Karp entered the workforce at age ten, supporting her mother and sister throughout her teen years in Southern California. Although her young life was scarred by violence and abuse, Karp stayed focused on her dream of a steady job and a home of her own. By age twenty-two her dream became reality. Karp loved her job as an executive assistant and signed the lease on a tiny cottage near the beach. And then the Great Recession hit. Karp, like millions of others, lost her job. In the six months between the day she was laid off and the day she was forced out onto the street, Karp scrambled for temp work and filed hundreds of job applications, only to find all doors closed. When she inherited a thirty-foot travel trailer after her father's suicide, Karp parked it in a Walmart parking lot and began to blog about her search for work and a way back.

Development MicroStrategy, Inc. Completely revised and updated with brand-new restaurants, *Eat Dat New Orleans* is the ultimate guide to America's best food city. When Mario Batali was asked his favorite food city, he responded, "New Orleans, hands down." No city has as many signature dishes, from gumbo and beignets to pralines and po' boys, from muffuletta and Oysters Rockefeller to king cake and red beans and rice (every Monday night), all of which draw nearly 9 million hungry tourists to the city each year. In this fully revised and updated new edition, *Eat Dat New Orleans* celebrates both New Orleans's food and its people. It highlights nearly 250 eating spots—sno-cone stands and food carts as well as famous restaurants—and spins tales of the city's food lore, such as the controversial history of gumbo and the Shakespearean drama of restaurateur Owen Brennan and his

heirs. Both first-time visitors and seasoned travelers will be helped by a series of appendices that list restaurants by cuisine, culinary classes and tours, food festivals, and indispensable "best of" lists chosen by an A-list of the city's food writers and media personalities, including Poppy Tooker, Lolis Eric Elie, Ian McNulty, Sara Roahen, Marcelle Bienvenu, Amy C. Sins, and Liz Williams.
