"This volume of
measurement
instruments in the
English language arts

is the second one produced by the Research Instruments Project (TRIP), which was designed to collect and evaluate research instruments in language arts, language and language development, literacy, literature, oral language, reading, teacher knowledge/attitudes, and writing. The 160 measurement instruments are arranged alphabetically by category; within each category, measures are listed alphabetically by author. All

instruments are cross-referenced by author. The age range indicated is the specific age grouping as stated by the authors or the age of the sample to whom the instrument was administered. The description of the instrument provides the purpose of the instrument, the date of construction, and a physical description of the instrument--often including sample items and administration data (directions, time, scoring procedures, and so forth). The lack of

reliability and validity data for instruments is indicated when the information was unavailable. In the case of tables of difficulty, indexes, and so on, the data contained are summarized and the complete data are made available with the test or references cited. The Groom Says Yes Apress
This book provides a resource that can be used by tutors who deliver and assess students

who are studying Functional ICT Level 2. The book contains 22 summative assessment practice papers in a range of contexts, which collectively cover the ICT Functional Skills Standards, and allow the tutor the flexibility to include the skills of internet research and sending and receiving emails. Each paper is scenario-based with linked activities and is accompanied by a detailed marking scheme. Consideration has been given to a range of examiners' comments and the papers' tasks reflect these comments. Among the forms that are included are formative and summative assessment sheets

and a student achievement tracking sheet. The inclusion of a reflective statement pro forma means that students can be encouraged to provide a structured review of their planning and working practices, and their strengths and weaknesses. Each of these skills is important in the world of work and day-to-day life. The opportunity for students to practise a number of summative assessment papers will better prepare them for the summative assessment set by their awarding body, and encourage their competence in that assessment.
