Nobody performs better under pressure. Regardless of the task, pressure ruthlessly diminishes our judgment, decision-making, attention, dexterity, and performance in every professional and personal arena. In *Performing Under Pressure*, Drs. Hendrie Weisinger and J.P. Pawliw-Fry introduce us to the concept of pressure management, offering empirically tested short term and long term solutions to help us overcome the debilitating effects of pressure. *Performing Under Pressure* tackles the greatest obstacle to personal success, whether in a sales presentation, at home, on the golf course, interviewing for a job, or performing onstage at Carnegie Hall.

Despite sports mythology, no one "rises to the occasion" under pressure and does better than they do in practice. The reality is pressure makes us do worse, and sometimes leads us to fail utterly. But there are things we can do to diminish its effects on our performance. *Performing Under Pressure* draws on research from over 12,000 people, and features the latest research from neuroscience and from the frontline experiences of Fortune 500 employees and managers, Navy SEALs, Olympic and other elite athletes, and others. It offers 22 specific strategies each of us can use to reduce pressure in our personal and professional lives and allow us to better excel in whatever we do. Whether you're a corporate manager, a basketball player, or a student preparing for the SAT, *Performing Under Pressure* will help you to do your best when it matters most.

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the *Emergency Response Guidebook*. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

Large, mature companies often struggle when it comes to the uncertain process of breakthrough innovation. But innovation is an imperative in today's cutthroat business environment. To fulfill its potential, there has to be a better way—and there is. Beyond the *Champion* argues that innovation is a talent all its own that requires distinct skills and expertise, just like finance or marketing. Viewing innovation as a discipline in its own right, it is easy to see that

breakthrough wins require an organizational design with clearly delineated roles, responsibilities, and career tracks for those who shoulder the responsibility for new products. Drawing on the results of a four-year study and two decades of related research, this book outlines three fundamental competencies necessary for innovation: discovery, incubation, and acceleration. Mapping these skills onto roles and opportunities for advancement, the authors deliver a pioneering blueprint for sustainable innovation.
