This stunning book introduces the world to some of the very special and gifted children who were described in Meg Blackburn Losey's *The Children of Now*. *The Children of Now* changed paradigms of how we raise, teach, and nurture our children, and created awareness that ADD, ADHD, and autism just might not be what we thought. The book touched parents, teachers, and caregivers all over the world. Now, in *Conversations With the Children of Now*, Dr. Meg goes even further to spotlight some of the Children of Now and others who have come forward since the first book was released. Intricately woven conversations with Indigo Children, Crystalline Children, Star Kids, and Transitional Kids reveal the hearts and souls of our future generation. These real children share their feelings and perceptions about themselves and our world. Hear, in their own words: Who they really are. Where they come from. Why they are here, and what they have come to share with humanity. What they know about God, and about Living and Dying. What they know about the healing of hearts and souls, and of bodies and minds. What will happen in the 2012 shift. These children speak about past lives, other worlds,

forgotten gifts, and unconditional love as a way of being. They show how we can change our world with grace. They also reveal how we can guide them, nurture them, and allow them to become the great human beings they were destined to become! [Blank Slate](#) AuthorHouse

“From the absurdly comic to the acutely moving”—eleven fearless stories of love, friendship, faith and family under siege (The New York Times Book Review). Stretching from 19th century Ellis Island to 21st century Gaza and suburban Ohio, “these 11 stories, each ambitious in scope, drop us into one nerve-racking situation after another . . . inhabiting a wide range of voices” (The San Francisco Chronicle). In “Coyote” a mother’s need to protect her toddler spirals into a dangerous obsession. “Prisoners Do” follows two married doctors who find temporary escape in a discomforting affair. An Israeli woman risks more than she imagines when she attempts to reclaim her captive child from militants in “All the Sons of Cain.” “Half-Life” uncovers the devastating secret behind a nanny’s chosen profession; in “An Uncontaminated Soul” a haunted and lonely cat lady’s impulsive rescue of two more kittens proves to be a heartbreaking turning point; and in the title story, an atheist family from Berkley relocates to the conservative Midwest to confront the consequences and limits of their beliefs. “Brave, essential, thrilling, each story in *You Should Pity Us* Instead takes us to those places we’ve never dared visit before” (Ben Stroud). “They detonate on target, literary grenades of

"As elegantly practical as it is theoretically elegant. It is a guided tour, as one examines the tools of expert teachers as they engage students in a journey that is aptly dubbed Reading Apprenticeship?learning how to become a savvy, strategic reader under the tutelage of thoughtful, caring, and demanding teachers.? P. David Pearson, University of California, Berkeley, and founding editor of the Handbook of Reading Research. Reading for Understanding is a monumental achievement. It was a monumental achievement when it came out as a first edition in 1999, bringing years of rigorous reading research together in a framework for teaching that made sense in actual secondary school classrooms. Now, just thirteen years later, Schoenbach and Greenleaf have several randomized clinical trials and multiple on-going studies at their fingertips to demonstrate the effects of this approach for developing the reading and thinking of young people in our nation?s middle and high school classrooms, as well as in

community college classrooms. Their careful work on developing disciplinary literacy among all students represents a passion for and commitment to supporting students?and their teachers?in reading for understanding, which translates to reading for enjoyment, self-awareness, learning, and for purposeful and informed action in our society. ?Elizabeth Moje, Arthur F. Thurnau Professor and Associate Dean for Research, School of Education, University of Michigan Reading Apprenticeship has proven to be an inspiration to Renton Technical College faculty and students alike. They have learned together to view themselves as readers in transformative ways, as they embrace powerful techniques to increase reading comprehension. The ideas and strategies in Reading for Understanding anchor this new and broad-based energy around reading and an enthusiasm among our faculty to model effective reading strategies for our students. ?Steve Hanson, President, Renton Technical College, Renton, Washington Reading for Understanding has the finest blend I have seen of research, strategies, and classroom vignettes to deepen teacher learning and help them connect
