*The Telling* Thomas Nelson

A young American woman and the son of plantations owners in the Amazon jungle fall in love, while around them a terrorist plot grows and threatens the safety of the United States.

Chosen Thomas Nelson

It takes an obsessive mind to know one. And Daniel Clark knows the elusive killer he's been stalking. He's devoted every waking minute as a profiler to find the serial killer known only as Eve. He's pored over the crime scenes of sixteen young women who died mysterious deaths, all in underground basements or caverns. He's delved into the killer's head and puzzled over the twisted religious overtones of the killings. What Daniel can't possibly know is that he will be Eve's next victim. He will be the killer's first Adam. After sixteen hopeless months, the case takes a drastic turn on a very dark night when Daniel is shot and

left for dead. Resuscitated after twenty minutes of clinical death, Daniel finds himself haunted by the experience. He knows he's seen the killer's face, but the trauma of dying has obscured the memory and left him with crushing panic attacks.

Nothing--not even desperate, dangerous attempts to reexperience his own death--seems to bring him closer to finding the killer. Then Eve strikes again, much closer to home. And Daniel's obsession explodes into a battle for his life . . . his sanity . . . his very soul. Enter a world of death and near death that blurs the lines between fiction and reality in a way that will leave you stunned. "The detail is stunning, pointing to meticulous research in FBI methods, forensic medicine, and psychological profiling. We have to keep telling ourselves that this is fiction. At the same time, we can't help thinking that not only could it happen, but that it will happen if we're not careful." David

Unable to crack the case, Raines appeals for help from a most unusual source: residents of the Center for Wellness and Intelligence, a private psychiatric institution for mentally ill individuals whose are extraordinarily gifted. It's

there that he meets Paradise, a young woman who witnessed her father murder her family and barely escaped his hand. Diagnosed with schizophrenia, Paradise may also have an extrasensory gift: the ability to experience the final moments of a person's life when she touches the dead body. In a desperate attempt to find the killer, Raines enlists Paradise's help. In an effort to win her trust, he befriends this strange young woman and begins to see in her qualities that most 'sane people' sorely lack. Gradually, he starts to question whether sanity resides outside the hospital walls...or inside. As the Bride Collector picks up the pace-and volume-of his gruesome crucifixions, the case becomes even more personal to Raines when his friend and colleague, a beautiful young forensic psychologist, becomes the Bride Collector's next target. Millie Maven (3-Book Set) Thomas Nelson

New York Times bestselling author Ted Dekker brings an exotic tale of adventure and creates his most memorable character ever. The story of how I, Julian Carter, and my precious two-year old son, Stephen, left Atlanta Georgia and found ourselves on a white sailboat, tossed about like a cork on a raging sea off of Australia's northern tip in 1963, is harrowing. But it pales in comparison to what happened deep in the jungle where I was taken as a slave by a savage tribe unknown to the world. Some places dwell in darkness so deep that even God seems to stay away. There, my mind was torn in two by the

---

gods of the earth. There, one life ended so another could begin. Some will say I was a fool for making the choices I made. But they would have done the same. They, too, would have embraced death if they knew what I knew, and saw through my eyes. My name is Julian and this is my story. But more, it is the story of my son who was born to change the world. From deep in the impenetrable jungles where New York Times bestselling author Ted Dekker was born and raised, comes *OUTLAW*, an epic adventure of two worlds that perhaps only he could write. Full of harrowing twists, sweeping violence, and wild love, *Outlaw* takes us beyond the skin of this world to another unseen.

Blessed Child Harper Collins New York Times bestselling author Ted Dekker teams up with Erin Healy for a gripping psychological thriller. Let me tell you all I know for sure. My name. Shauna. I woke up in a hospital bed missing six months of my memory. In the room was my loving boyfriend—how could I have forgotten him?—my uncle and my abusive stepmother. Everyone blames me for the tragic car accident that left me near death and my dear brother brain damaged. But what they say can't be true—can it? I believe the medicine is doing strange things to my memory. I'm unsure who I can trust and who I should run from. And I'm starting to remember things I've never known.

Things not about me. I think I'm going crazy. And even worse, I think they want to kill me. But who? And for what? Is dying for the truth really better than living with a lie?
