An authentic account of one of the most pivotal battles of World War Two. The World War Two invasion known as D-Day was one of the largest military endeavours in history. It involved years of planning, total secrecy and not only soldiers but also sailors, paratroopers and many specialists. Acclaimed

author Deborah Hopkinson weaves together the contributions of key players in D-Day in a masterful tapestry of official documents, personal narratives and archival photos to provide an action-packed and authentic account.

The Halifax Explosion Lerner Publications

At 9:06 in the morning of December 6, 1917 in the City of Halifax, Nova Scotia two ships collided. Minutes later there was an apocalyptic explosion followed by a blizzard of flying

glass, splintered wood and white hot metal falling from the sky. In an instant almost 2,000 people lay dead and another 9,000 wounded and thousands left homeless. This set in motion the greatest rescue mission ever known at the time between the United States and Canada. Within hours, without authority or hesitation the City of Boston and the State of Massachusetts pulled together all their medical resources and went to the aid of Halifax. This is the story of unprecedented compassion, mercy, and heroism. It speaks of the eternal friendship and helping hands across the border

---

between the State of  
Massachusetts and the people of  
Nova Scotia. This humanitarian  
rescue mission was never  
forgotten. Every year a special  
thank you gift is sent to Boston  
from the people of Nova Scotia.  
This gift symbolizes peace on  
earth, hope and light in the  
darkness..... a giant fifty foot  
Christmas tree!

### **Druscilla's Halloween**

Lerner Publications

Did witches always ride  
brooms? No! In fact, long,  
long ago, witches crept  
about on tiptoe. On  
Halloween, they would  
scare children and cast

spells . . . but always from  
the ground. No witch ever  
thought of flying—no witch  
until Druscilla. Druscilla was  
an old witch with the loudest,  
creakiest knees anyone had  
ever heard. But she was  
determined not to let  
anything spoil her element of  
surprise. One Halloween,  
after many failed attempts at  
sneaking up on  
unsuspecting villagers,  
Druscilla made a discovery  
that changed the course of  
witch history.

The gripping story of an epic prairie snowstorm that killed hundreds of

newly arrived settlers and cast a shadow on the promise of the American frontier. January 12, 1888, began as an unseasonably warm morning across Nebraska, the Dakotas, and Minnesota, the weather so mild that children walked to school without coats and gloves. But that afternoon, without

warning, the atmosphere suddenly, violently changed. One moment the air was calm; the next the sky exploded in a raging chaos of horizontal snow and hurricane-force winds. Temperatures plunged as an unprecedented cold front ripped through the center of the continent. By Friday morning, January 13, some

---

five hundred people lay dead on the drifted prairie, many of them children who had perished on their way home from country schools. In a few terrifying hours, the hopes of the pioneers had been blasted by the bitter realities of their harsh environment. Recent immigrants from Germany, Norway, Denmark, and the Ukraine learned that of five families who their free homestead was not a paradise but a hard, unforgiving place governed by natural forces they neither understood nor controlled. With the storm as its dramatic, heartbreaking focal point, The Children's Blizzard captures this pivotal moment in American history by tracing the stories of five families who were forever changed that day. Drawing on family interviews and memoirs, as well as hundreds of contemporary accounts, David Laskin creates an intimate picture of the men, women, and children who made choices they would regret as long as they lived. Here too is a meticulous account of the

---

evolution of the storm and the vain struggle of government forecasters to track its progress. The blizzard of January 12, 1888, is still remembered on the prairie. Children fled that day while their teachers screamed into the relentless roar. Husbands staggered into the blinding wind in search of wives.

Fathers collapsed while trying to drag their children to safety. In telling the story of this meteorological catastrophe, the deadliest blizzard ever to hit the prairie states, David Laskin has produced a masterful portrait of a tragic crucible in the settlement of the American heartland.

steaming out of New York City on December 1, 1917, laden with a staggering three thousand tons of TNT and other explosives, the munitions ship Mont-Blanc fought its way up the Atlantic coast, through waters prowled by enemy U-boats. As it approached the lively port city of Halifax, Mont-Blanc's deadly cargo erupted with the force of 2.9 kilotons of TNT—the most powerful	explosion ever visited on a human population, save for HIroshima and Nagasaki. "This title shows how  
a group of European  
scientists, in the  
span of roughly one  
hundred and fifty  
years (early 1500s to

the mid-1600s) and  
working through direct  
observation, overturned  
the centuries' old  
accepted view of a  
geocentric universe.  
Through their research  
and writings, they  
proposed and described  
a new order of things  
in which the Earth  
orbits the Sun. In so  
doing, these  
scientists--Nicolaus  
Copernicus, Johannes  
Kepler, Tycho Brahe,  
Galileo Galilei, and  
Isaac

What if you could live again and again, until you got it right? On a cold and snowy night in 1910, Ursula Todd is born to an English banker and his wife. She dies before she can draw her first breath. On that same cold and snowy night,

Ursula Todd is born, lets out a lusty wail, and embarks upon a life that will be, to say the least, unusual. For as she grows, she also dies, repeatedly, in a variety of ways, while the young century marches on towards its second cataclysmic world war. Does Ursula's apparently infinite number of lives give her the power

to save the world  
from its inevitable  
destiny? And if she  
can -- will she?
