“ A.K.A. Kairos Astroire & the Snowdrifts ” Kairos, poor village boy, born without a shred of talent, lived in a world much like ours except it is suffused with magic and an energy called Ki. Enrolled in the Saint Cadets Academy and at the very bottom of the rung, he and his childhood buddies faced expulsion, starvation, and then death. While everyone dreamt to wield those strange powers and transcend their mortal shells, they struggled to survive and earn some money. Except the world doesn't feel particularly generous and decided to throw some wrenches into the gears; Wrenches the size of inter-species war. Destiny Quest for a New World A journey of intrigue, romance, and danger at the end of the twenty-first century. Earth was rapidly running out of natural resources. Its population was exploding, leaving humankind with a sense of hopelessness. The world was struggling to recover from an economic collapse and the devastation of a recent multinational war. But the Committee, a powerful clandestine financial group of forward-thinking individuals, was determined that humankind would survive. They chose an upward-bound individual to select and oversee the training of a team of highly intelligent young men and women to begin a monumental venture. They would establish a human colony beyond a monumental venture. They would establish a human colony beyond Earths solar system with the purpose of securing the future of human civilization. Grant Wickham and his colleague Alexis Lambert, a former college sweetheart, would accept the challenge. Under the guidelines of the Committee, these two diligent and motivated collaborators developed an extensive selection criterion. This specially selected team received extensive academic and technical training. Eric Devile, the chosen team commander, would lead the group on their journey into uncharted space, assisted by Albert, a state-of-the-art supercomputer that navigates the ship and attempts to keep the team out of danger. They would face many challenges and demands that threaten the

success of their mission, causing Eric and the team to doubt whether humanity can ever root itself on an alien planet. A realistic look at mankind's first journey to another world!

Thirty years after his death, we are finally catching up to Thomas Merton as one of the greatest spiritual figures of the twentieth century. The genius and spirituality of this unusual man could not be contained in his life as a monk but spilled over richly into his life and work as a poet, critic, rebel, sage, and even artist and photographer. Merton was aware that he had heretic blood within him, and it soon became apparent to the world. The balding French-English intellectual living as a Trappist monk at Our Lady of Gethsemani Abbey in Kentucky took a vow of silence, yet corresponded with and befriended such luminaries as Joan Baez, Jacques Maritain, John Howard Griffin, Martin Luther King Jr., Erich Fromm, and Boris Pasternak. His famous autobiography, The Seven Storey Mountain, captured the imagination of a generation, selling more than six hundred thousand copies in its first year. Merton also took a vow of obedience, yet feuded constantly with his second abbot. As a monk he promised to remain celibate, yet he found himself passionately in love with a nurse he met while in hospital in Louisville, Kentucky. And at the end of his life, Merton, a monk within the western Roman Catholic tradition, was moving closer and closer to Eastern spirituality. This brilliant new book is the first to use recently released diary entries and correspondence by Merton and includes new insights about the recently published diary of his episode of the heart. Higgins compares Merton with William Blake, the monk's intellectual and spiritual hero, and comes to startling conclusions about the emotional and intellectual passions that drove Thomas Merton, a man and thinker for all seasons.

In the tradition of empowering spiritual writers such as Ilanya Vanzant, Bishop Vashti McKenzie offers women a Christian path to personal transformation. A groundbreaking preacher who, in 2000, became the first woman to serve as bishop in the African Methodist Episcopal Church, Bishop McKenzie is renowned for her eloquence and passion in the pulpit. Now she brings her inspirational message to readers through the biblical story of the meeting at the well between Jesus and the Samaritan woman. In twelve lessons, McKenzie interweaves the Samaritan woman's experiences with contemporary personal stories, Bible quotations, life-affirming sayings, and meditational activities. Through them she shows women that if they hold onto hope and listen for their moments of epiphany, they can accomplish anything.

Decolonizing Ecotheology: Indigenous and Subaltern Challenges is a pioneering attempt to contest the politics of conquest, commodification, and homogenization in mainstream ecotheology, informed by the voices of Indigenous and subaltern communities from around the world. The book marshals a robust polyphony of reportage, wonder, analysis, and acumen seeking to open the door to a different prospect for a planet under grave duress and a different self-assessment for our own species in the mix. At the heart of that prospect is an embrace of soils and waters as commons and a privileging of subaltern experience and marginalized witness as the bellwethers of greatest import. Of course, decolonization finds its ultimate test in the actual return of land and waters to precontact Indigenous who yet have feet on the ground or paddles in the waves, and who conjure dignity and vision in the manifold of their relations, in spite of ceaseless onslaught and dismissal. Their courage is the haunt these pages hallow like an Abel never entirely erased from the history. May the moaning stop and the re-creation begin!

In this collection edited by Alan G. Gross and Arthur E. Walzer, scholars in communication, rhetoric and composition, and philosophy seek to “ reread ” Aristotle ’ s Rhetoric from a purely rhetorical perspective. So important do these contributors find the Rhetoric, in fact, that a core tenet in this book is that “ all subsequent rhetorical theory is but a series of responses to issues raised by the central work. ” The essays reflect on questions basic to rhetoric as a humanistic discipline. Some explore the ways in which the Rhetoric explicates the nature of the art of rhetoric, noting that on this issue, the tensions within the Rhetoric often provide a direct passageway into our own conflicts.

Reconciliation: Mission and Ministry in a Changing Social Order Ashgate Publishing, Ltd.  
The sit-ins of the American civil rights movement were extraordinary acts of dissent in an age marked by protest. By sitting in at "whites only" lunch counters, libraries, beaches, swimming pools, skating rinks, and churches, young African Americans and their allies put their lives on the line, fully aware that their actions would almost inevitably incite hateful, violent responses from entrenched and increasingly desperate white segregationists. And yet they did so in great numbers: most estimates suggest that in 1960 alone more than seventy thousand young people participated in sit-ins across the American South and more than three thousand were arrested. The simplicity and purity of the act of sitting in, coupled with the dignity and grace exhibited by participants, lent to the sit-in movement's sanctity and peaceful power. In Like Wildfire, editors Sean Patrick O'Rourke and Lesli K. Pace seek to clarify and analyze the power of civil rights sit-ins as rhetorical acts—persuasive campaigns designed to alter perceptions of apartheid social structures and to change the attitudes, laws, and policies that supported those structures. These cohesive essays from leading scholars offer a new appraisal of the origins, growth, and legacy of the sit-ins, which has gone largely ignored in scholarly literature. The authors examine different forms of sitting-in and the evolution of the rhetorical dynamics of sit-in protests, detailing the organizational strategies they employed and connecting them to later protests. By focusing on the persuasive power of demanding space, the contributors articulate the ways in which the protestors' battle for basic civil rights shaped social practices, laws, and the national dialogue. O'Rourke and Pace maintain that the legacies of the civil rights sit-ins have been many, complicated, and at times undervalued.

It is difficult to point to an aspect of Jungian psychology that does not touch on mind, body and healing in some way. In this book Raya Jones draws on the triad of body, mind and healing and (re)presents it as a domain of ongoing uncertainty within which Jung ’ s answers stir up further questions. Contributors from both clinical and scholarly backgrounds offer a variety of cultural and historical perspectives. Areas of discussion include: the psychosomatic nature of patients ’ problems transference and counter-transference therapeutic techniques centred on movement or touch. Striking a delicate balance between theory-centred and practice-oriented approaches Body, Mind and Healing After Jung is essential reading for all Jungians.

Why did some doctors in Classical Greece feel compelled to study the universe as a whole? How could cosmological principles be employed in clinical practice? This book explores the works of the cosmological doctors, such as On Breaths, On Flesh, and On Regimen, and argues that they form part of a much broader reorganization of medical knowledge in the fifth and fourth centuries BCE. These healers used cosmological principles as a supplement to, rather than a replacement of, more traditional approaches to health and disease, creating theories about the cosmos whose obscurities can best be understood as the products of medical thinking. Through fresh readings of many ancient sources, the book revises customary views of the intersections between medicine and cosmology in Classical Greece and advances our

understanding of one of the most remarkable periods in the history of ancient thought.

With stunning art, epic battle scenes, and unexpected plot twists, Kairos forces you to question where to draw the line between hero and antihero. Nills and Anaëlle are looking forward to their first night in their rustic cabin in the woods. But the couple ’ s idyllic vacation is suddenly thrown into turmoil when a strange flash of light bursts from the fireplace. A portal appears, and out of it spill dragon-like creatures that are armed to the teeth. They grab Anaëlle and flee back through the portal, leaving a distraught Nills with a sudden decision: stay behind, or leap through after her? He leaps. And that ’ s when things get really weird.

The Land of Christ Macmillan

This book is the story of Emma Tennant's parent's house, Rovinia, set above the bay in Corfu where legend has it Ulysses was shipwrecked and found by Nausicaa, daughter of King Alcinous. It is also the story of people like Maria, a miraculous cook and the presiding spirit of the house, and her husband, Thodoros, and of the inhabitants of the local village, high on the hill above the bay. Full of color and contrast, A House in Corfu shows the huge changes in island life since the time of the Tennants' arrival, and celebrates, equally, the joy of belonging to a timeless world: the world of vine, olive, and sea.

"Palestinians and Israeli Jews live in one land, yet as two distinct communities, each of which claims ownership of the same territory. How are we to understand the divine promise pertaining to the land? Did God promise the land exclusively to the Jewish people? Do the Palestinians have a right to live in the land, or does God want them to leave? After affirming important Palestinian Evangelical concerns, The Land of Christ challenges the argument that God gave the land to Israel. Yohanna Katanacho asks: (1) What are the borders of the land? (2) Who is Israel? (3) How did God give Israel the land? Through careful biblical exegesis, the book responds to these questions, exposing the superficiality of many slogans and claims. Then the book presents an alternative biblical theology of the land. However, the theology of the land in this book is intimately associated with the context in Israel/Palestine. The Palestinian Kairos Document is the most accepted representative of the current Palestinian context and theology. The book unpacks this document and extrapolates on its theology of the land. Finally, the author does not leave the reader without hope. Katanacho portrays Hagar as a symbol of hope and considers the Korahite Psalms from the perspective of refugees. "
