Blood Music is a 1983 award winning science fiction novelette by Greg Bear. It is about a scientist who injects himself with billions of tiny biological computers, and then gets nervous when they start changing his body. Blood Music follows the story of Vergil Ulam, a brilliant and obsessive scientist who works for...

SF REVIEWS.NET: Blood Music / Greg Bear ¹/₂

Perhaps it's Bear's concept of an integration of nanobots forming a construct that surpasses humans' capacity, perhaps it is a development that an altered consciousness will create on our altered world, perhaps it is his playing out of a theme of transformation that rivals 2001 but Bear's Blood Music is just pleasing and thoughtful to a superior degree for me.
