The Practice of Chinese Medicine E-Book Blood on the Tongue A Cooper & Fry Mystery  
Blood on the Tongue is a complex, atmospheric police procedural perfect for fans of Ian Rankin and Peter Robinson. It's a new year for Peak District detectives Ben Cooper and Diane Fry, and that means new murders to solve in the icy depths of a bitter winter in Edendale, Derbyshire. It isn't the easiest way to commit suicide, but the dead woman seems to have simply curled up in the freezing snow and lain there until her heart stopped. There was no one to observe her death but the foxes and the hares. Yet she is riddled with bruises. Cooper and Fry are put on the case but they have as much questions about the abuse the woman might have suffered in life as they do the circumstances of her death. The unidentified body of a dead man is found by the roadside. And an intriguing young woman arrives in Edendale desperate to solve a decades old puzzle that has haunted her family: a Royal Air Force bomber crashed into Edendale, in the same spot where the frozen corpse was found, killing everybody on board except for the pilot, who supposedly walked away from the wreck and was never seen again. With colds and flus and holiday plans thinning out the ranks of the Edendale police force, Cooper and Fry are scrambling to find an explanation for the two recent deaths while being pulled deeper into the mysteries of the past. Rich with multiple

intertwining mysteries, this Cooper and Fry thriller has all of psychological suspense and three dimensional characters that fans have come to expect from Stephen Booth—a master of his craft.

Night falls. Passions are released. Yet human desire isn't the only thing the darkness brings with it. When the moon is high and the land is sleeping, gods descend and transform into men of such beauty, they are irresistible to mere mortals. Vampires hunt, not just for blood but for men worthy enough to join their ranks. And the Devil himself is free to roam and take what he wants from those who don't know any better. Other creatures tread bolder paths. They walk amongst us during daylight hours -- creatures like an ancient demon from the sea, ghosts of pirates long since dead, and a beast of blackbirds whose hunger is not for love or lust, but revenge. Even other worlds are not safe from creatures of the night. Many centuries into the future, man-love is illegal. Men caught coupling with other men are exiled to a verdant planet in whose breathtaking jungles lurks the last of an ancient race. And finally there are the creatures within ourselves. Borne from the desire for youth and beauty, a man can be driven to extreme lengths. He can become a beast as wicked and evil as anything hell can expel. Some men have no control over the beast within, while others endure the wickedness of a curse. One way or another, this book will keep you up until The Stroke of Midnight. Do you dare?

"The Bone Curse is a strong medical thriller—inclusive, skillfully written, and inviting." —Foreword Reviews "Realistic details of Ben's hospital clerkship as he and other med students diagnose patients help ground the story's paranormal elements. ... The novel's strength lies in the author's sensitive commentary on adult responsibilities and mental illness."

What happens when catastrophe becomes an everyday occurrence?

Each of the seven stories in Assia Djebar's *The Tongue's Blood Does Not Run Dry* reaches into the void where normal and impossible realities coexist. All the stories were written in 1995 and 1996—a time when, by official accounts, some two hundred thousand Algerians were killed in Islamist assassinations and government army reprisals. Each story grew from a real conversation on the streets of Paris between the author and fellow Algerians about what was happening in their native land. Contemporary events are joined on the page by classical themes in Arab literature, whether in the form of Berber texts sung by the women of the Mزاب or the tales from *The Book of One Thousand and One Nights*. *The Tongue's Blood Does Not Run Dry* beautifully explores the conflicting realities of the role of women in the Arab world. With renowned and unparalleled skill, Assia Djebar gives voice to her longing for a world she has put behind her.

*Prisoner's Cinema* by Burning Tongue is the visual companion to their new LP. With chainsaw guitars, pummeling double-bass and a barking prophet preaching an end times message, Burning Tongue is here to remind you that the plague has arrived and rain piss all over your pitiful socially-distanced BBQs, parkhangs and elbow daps. The debut LP from the band formerly known as Blackest, *Prisoner's Cinema*, is eleven newsongs of crushing nihilism that nod to the shadowy side of hardcore punk—channeling the works of everyone from Craft to Dwid Hellion to G.I.S.M. and updating them for modern audiences. This is real hate, played real fast. Like the iconic scene from the legendary *A Clockwork Orange*,

*Prisoner's Cinema* is an unflinching and cynical view of modern life while strapped to a gurney with eyelids peeled back. With themes of emotional release, codependency, substance abuse and hitting rock bottom appearing on the release, the LP references the Laurie Anderson documentary *Heart of a Dog* and examines being placed in an inescapable situation of one's own doing. "Sometimes maintaining the happiness of others gets in the way of your own," reflects vocalist Chris Marotta. "There are times when we repress our thoughts and emotions for the sake of others. This can be positive in the moment but isn't a viable solution long term. *Prisoner's Cinema* is not only my catharsis but also my way of warning others of the dangers of doing so." The result is a true juggernaut: *Prisoner's Cinema* is *Merauder* on meth, *Leviathan* off of the anti-depressants and your bulldozing soundtrack to society's collapse.
