Gemma James' Pirate Adventure McGraw Hill Professional

Thirty-five years have passed since the death of the Master. But now a new evil walks among the living. . . . When nineteen-year-old John Shaw returns from the trenches of World War I, he is haunted by nightmares—not only of the battlefield, but of the strange, cruel and impossible feats of his regiment's commander, Quincey Harker. Harker's ferocity knows no limits, and his strength is superhuman. At first John blames his bloody nightmares on trench fever. But when Harker appears in England and begins wooing John's sister, John must confront the truth—and stop Harker from continuing Dracula's bloodline.

Genealogy of the Descendants of John Eliot, "apostle to the Indians," 1598-1905 Forge Books

First it was the Bloodhound, sensationalized in the dramatizations of Uncle Tom's Cabin. Then it was the Doberman, symbol of the Nazi menace. Today, it is the Pit bull that is vilified for the depravity of his masters. Today, police chase down fleeing Pit bulls in the street, firing dozens of wild shots in response to media-fed rumors of supernatural Pit bull abilities. Politicians coach and nurture this fear with their own brand of rhetoric used to assist in the passing of quick and ineffective legislation created to pacify communities

ignorant of the real cause for dog attacks. Hundreds of animal shelters throughout the country kill all unclaimed Pit bull-looking dogs, as they are deemed "unadoptable" solely on their physical appearance. This has occurred because the human/dog bond, the most complex and profound inter-species relationship in the history of mankind, has been reduced to a simple axiom: Breed of dog = degree of dangerousness. We have come to accept that hanging entire breeds of dogs in effigy for the sins of their owners is an acceptable solution to canine aggression because we have been placated by a Pit Bull Placebo. Like the pharmacologically inactive sugar pill dispensed to pacify a patient who supposes it to be medicine, eradication of the Pit bull is the placebo administered to ease the public's anxiety about dog attacks. The book, *The Pit Bull Placebo: The Media, Myths and Politics of Canine Aggression*, explores how our views and beliefs about canine aggression have changed over the last 150 years and how our perceptions about the nature and behavior of dogs has been influenced by persons and organizations who often times disseminate information about dog attacks which is tailored to further an agenda unrelated to the improvement of the human/dog bond. We are in the midst of a social hysteria about Pit bulls because we have abandoned centuries-old common-sense and have been duped by inaccurate reporting from the "Pit Bull Paparazzi" and by politicians who traffic in rumors, myths and pseudoscience in their efforts to pass legislation that demonizes dogs while exonerating criminal and abusive owners. If we truly believe that the extremely rare cases of fatal dog attacks merit extreme measures in the management of dogs, if our concern and shock is genuine, then we must be equally genuine and sincere in seeking out and addressing the real causes for these incidents. Only by stepping back from the swirl of present-day hysteria surrounding isolated cases of severe canine aggression and examining the problem from a broader and more objective perspective can we hope to understand and address the human and canine behaviors which contribute to these incidents.

[Four Years in a Government Exploring Expedition](#)

Delacorte Press

Hunted meets *The Wrath and the Dawn* in this bold fairytale retelling—where court intrigue, false identities, and dark secrets will thrill fans of classic and contemporary fantasy alike. Princess Alyrra has always longed to escape the confines of her royal life, but when her mother betroths her to a powerful prince in a distant kingdom, she

has little hope for a better future. Until Alyrra arrives at her new kingdom, where a mysterious sorceress robs her of both her identity and her role as princess—and Alyrra seizes on the opportunity to start a new life for herself as a goose girl. But as Alyrra uncovers dangerous secrets about her new world, including a threat to the prince himself, she knows she can't remain silent forever. With the fate of the kingdom at stake, Alyrra is caught between two worlds, and ultimately must decide who she is and what she stands for. Originally self-published as an ebook and now brought to life with completely revised text, *Thorn* also features an additional short story set in-world, *The Bone Knife*.

Random House

I was born to the name of Rachel Weatere in the year 1684, more than three hundred years ago. The one who changed me named me Risika, and Risika I became, though I never asked what it meant. I continue to call myself Risika, even though I was transformed into what I am against my will. By day, Risika sleeps in a shaded room in Concord, Massachusetts. By night, she hunts the streets of New York City. She is used to being alone. But now someone is following Risika. Someone has left her a black rose, the same sort of rose that sealed her fate three hundred years ago. Three hundred years ago Risika had a family -- a brother and a sister who loved her. Three hundred years ago she was human. Now she is a vampire, a powerful one. And her past has come back to torment her. This atmospheric, haunting tale marks the stunning debut of a promising fourteen-year-old novelist. From the Hardcover edition.

British Children's Literature and the First World War Bloodline

2

The Letters of Mina Harker Quirk Books

Bellamy's debut novel revives the central female character from Bram Stoker's *Dracula* and imagines her as an independent woman living in San Francisco during the 1980s. Hypocrisy's not the problem, I think, it's allegory the breeding ground of paranoia. The act of reading into--how does one know when to stop? KK says that Dodie has the advantage because she's physical and I'm "only psychic." ... The truth is: everyone is adopted. My true mother wore a turtleneck and a long braid down her back, drove a Karmann Ghia, drank Chianti in dark corners, fucked Gregroy Corso ... --Dodie Bellamy, *The Letters of Mina Harker* First published in 1998, Dodie Bellamy's debut novel *The Letters of Mina Harker* sought to resuscitate the central female character from Bram Stoker's *Dracula* and reimagine her as an independent woman living in San Francisco during the 1980s--a woman not unlike Dodie Bellamy. Harker confesses the most intimate details of her relationships with four different men in a series of letters. Vampirizing Mina Harker, Bellamy turns the novel into a laboratory: a series of attempted transmutations between the two women in which the real story occurs in the gaps and the slippages. Lampooning the intellectual theory-speak of that era, Bellamy's narrator fights to inhabit her own sexuality despite feelings of vulnerability and destruction. Stylish but ruthlessly unpretentious, *The Letters of Mina Harker* was Bellamy's first major claim to the literary space she would come to inhabit.

The Logic of Science in Sociology Heinle & Heinle Pub

The Edgar Award-winning author of *Never Trust a Dead Man* puts a terrifying spin on what should be a typical night in a small town. Sixteen-year-old Kerry has got a tough night ahead of her. What begins as a simple lost-and-found trip to the laundromat to rescue her little brother's stuffed koala bear turns into a nightmarish odyssey of murder, vampires, and—quite possibly—true love. “Interview with a Vampire for the learner's permit set.” —The Horn Book “A freshly written thriller, an offbeat love story, an engaging twist on the vampire novel, and an exciting tale of moral complexity Point [this] book at the Lois Duncan fans as well as Anne Rice followers, and get out of the way.” —The Bulletin “[Vande Velde] is a master at taking traditional fairy-tale-like themes and making them fresh and totally unique. *Companions of the Night* . . . does that for the vampire story The narrative is tightly wound, keeping readers ready for excitement and action.” —Emma Carbone, New York Public Library

Bloodline 2 Penguin

From the moment he knows that he is destined to be a vampire, Chris thirsts for the blood of people around him while also struggling to remain human.

Henri de Toulouse-Lautrec HarperCollins

Strategic Business Forecasting: A Structured Approach to Shaping the Future of Your Business Candlewick Press

One of the strangest (and funniest) love triangles ever to hit YA fiction, when a pair of twins (one boy, one girl) both fall for the boy who moves in with them...who may or may not be a vampire. Judy and Kyle Renneker are sixteen-year-old fraternal twins in a rambling family of nine. They have a prickly history with each other and are, at least from Judy's perspective, constantly in fierce competition. Kyle has recently come out of the closet to his family and feels he might never know what it's like to date a guy. Judy, who has a history of pretending to be something she isn't in order to get what she wants, is pretending to be born-again in order to land a boyfriend who heads his own bible study.

Regulatory Theory Routledge

Kate Blackwell is the symbol of success—a beautiful woman

who has parlayed her inheritance into an international conglomerate. Now, celebrating her 90th birthday, Kate surveys the family she has manipulated, dominated, and loved: the fair and the grotesque, the mad and the mild, the good and the evil—her winnings in life.

My Secret File Oxford University Press, USA

“A helpful read not just for corporate strategists but for almost anyone looking ahead.” *Los Angeles Times* What's Your Next Big Move? At the turn of the century, Western Union passed on the chance to dominate the telephone industry. Later, General Electric concluded that a new invention called television was doomed to fail. And very recently, decision makers at the highest level were taken off-guard when the global economy dropped from under their feet--and took their companies with it. Today, only those business leaders with the power of long-term foresight will seize and hold true competitive advantage. But can managers really predict the future? Yes, to a greater extent than one might expect. *Strategic Business Forecasting* shows how to identify and quantify possible events that may affect your business. Applying creativity, personal experience, and the lessons of history, you can use such forecasting to develop plans that will help your organization compete. Drs. Simon Ramo and Ronald Sugar, two giants of the aerospace industry, share their Four-Measures Rating system to help you explore the world of possibilities--thoroughly and systematically. Under their tutelage, you will be equipped to: Create a comprehensive list of possible scenarios concerning your business Utilize a scoring system to rate each scenario's merit as a serious and useful prediction Develop an effective plan that strategically shapes the future of your organization The authors provide vivid illustrations of the Four-Measures system at work with real-world examples of both forecasting failures and successes. No one can predict perfectly, and the authors don't promise magic. With the approach described in *Strategic Business Forecasting*, however, you can ensure your organization is better poised to seize future opportunities, avoid pitfalls, and handle anything the increasingly volatile global economy throws your way.

Report of the Government Scientific Expedition to Bellenden-Ker Range Upon the Flora and Fauna of that Part of the Colony St. Martin's Press

In this story told primarily through journal entries, a British soldier in World War I makes the horrifying discovery that his regiment commander is descended from Count Dracula.

The American Dream Scholastic Inc.

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains,

rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

The Clairvoyant's Glasses Anubis Pub

An epic stand-alone adventure in Erin Hunter's #1 nationally bestselling Warriors series!
