The Voyages of Captain James Cook Bloomsbury Academic

"The best book to have been written about the Vietnam War" (The New York Times Book Review); an instant classic straight from the front lines. From its terrifying opening pages to its final eloquent words, *Dispatches* makes us see, in unforgettable and unflinching detail, the chaos and fervor of the war and the surreal insanity of life

in that singular combat zone. Michael Herr's unsparing, unorthodox retellings of the day-to-day events in Vietnam take on the force of poetry, rendering clarity from one of the most incomprehensible and nightmarish events of our time. *Dispatches* is among the most blistering and passionate accounts of war in our literature.

Depicted by the man himself, *The Journals of James Cook* is an intimate first-hand account, providing an uncensored and reliable narrative of adventures spanning across the globe. The *Journals of James Cook* depict three of Captain James Cook's most glorious expeditions, starting in 1768 and leading to Cook's tragic death in 1779. Having ventured all over the Pacific, Cook encountered lands not yet charted by the British. Though his discoveries and maps inadvertently led to British colonization, Cook held a deep respect for the native people he encountered. He recorded their practices and wrote of them

fondly. Cook even befriended some of the native people he encountered, including a Tahitian man who, after hearing of Cook's homeland, wanted to visit it as well. Per the man's request, Cook sailed him to Britain, where the man stayed until he and Cook sailed back to Tahiti three years later. After charting Australia, and the whole coast of New Zealand, Cook was involved in a plot to kidnap a Hawaiian monarch and ransom them in order to recover stolen property. He was killed during this expedition, leaving behind a legacy of a detailed description of the Pacific Ocean and its coasts. James Cook's expeditions around the world and his detailed and innovative work as a cartographer inspired advancements in scientific, medical, historical and geological fields. His influence has also reached the literary world, inspiring novel series and characters, including the infamous Captain Hook. Exuding ambition, courage, and confidence, The Journals of James Cook provide a privileged peak into the travels and accomplishments of an adventurous, and invaluable man. Packed with wonder but free of imperialistic arrogance, The Journals of James Cook serve as a valuable and intriguing primary source of a time when places in the world were yet to be mapped. Now presented in an easy-to-read font and redesigned with a stunning new cover, James Cook's The Journals of James Cook is accommodating to contemporary readers, providing a fresh version of the esteemed literary work while preserving its wonders and adventures.

From Australia to Tahiti, Fiji, Easter Island, and beyond, this exhilarating tropical epic is full of disarming observations and high adventure.

Captain James Cook was a supreme navigator and explorer. Born in North Yorkshire in 1728, when Cook entered the world of the peoples of the South Pacific, the gulf between the two cultures was not nearly as vast as it was a century later, when ships made of metal and powered by steam were able to expand and enforce European Empires. In their different ways both the English and the peoples of the Pacific had to battle the seas and its moods with timber vessels powered by sail and human muscle. Captain James Cook represented - in those places to which he voyaged - English attitudes in the eighteenth century. In his voyages he came across peoples with hugely different systems of thought and cultures. John Gascoigne explores what happened when the two systems met, and how each side interpreted the other in terms of their own beliefs and experiences.

The bestselling author of Blue Latitudes takes us on a thrilling and eye-opening voyage to pre-Mayflower America. On a chance visit to Plymouth Rock, Tony Horwitz realizes he's mislaid more than a century of American

history, from Columbus's sail in 1492 to Jamestown's founding in 1607. Did nothing happen in between? Determined to find out, he embarks on a journey of rediscovery, following in the footsteps of the many Europeans who preceded the Pilgrims to America. An irresistible blend of history, myth, and misadventure, *A Voyage Long and Strange* captures the wonder and drama of first contact. Vikings, conquistadors, French voyageurs—these and many others roamed an unknown continent in quest of grapes, gold, converts, even a cure for syphilis. Though most failed, their remarkable exploits left an enduring mark on the land and people encountered by late-arriving English settlers. Tracing this legacy with his own epic trek—from Florida's Fountain of Youth to Plymouth's sacred Rock, from desert pueblos to subarctic sweat lodges—Tony Horwitz explores the revealing gap between what we enshrine and what we forget. Displaying his trademark talent for humor, narrative, and historical insight, *A Voyage Long and Strange* allows us to rediscover the New World for ourselves.

With *The Sex Lives of Cannibals*, Maarten Troost established himself as one of the most engaging and original travel writers around. *Getting Stoned with Savages* again reveals his wry wit and infectious joy of discovery in a side-splittingly funny account of life in the farthest reaches of the world. After two grueling years on the island of Tarawa, battling feral dogs, machete-wielding neighbors, and a lack of beer on a daily basis, Maarten Troost was in no hurry to return to the South Pacific. But as time went on, he realized he felt remarkably out of place among the trappings of twenty-first-century America. When he found himself holding down a job—one that might possibly lead to a career—he knew it was time for him and his wife, Sylvia, to repack their bags and set off for parts unknown. *Getting Stoned with Savages* tells the hilarious story of Troost's time on Vanuatu—a rugged cluster of islands where the natives gorge themselves on kava and are still known to “eat the man.” Falling into one amusing misadventure after another, Troost struggles against typhoons, earthquakes, and giant centipedes and soon finds himself swept up in the laid-back, clothing-optional lifestyle of the islanders. When Sylvia gets pregnant, they decamp for slightly-more-civilized Fiji, a

fallen paradise where the local chiefs can be found watching rugby in the house next door. And as they contend with new parenthood in a country rife with prostitutes and government coups, their son begins to take quite naturally to island living—in complete contrast to his dad.

Admiral Stavridis, a leader in military, international affairs, and national security circles, shares his love of the sea and some of the sources of that affection. The Sailor's Bookshelf offers synopses of fifty books that illustrate the history, importance, lore, and lifestyle of the oceans and of those who “go down to the sea in ships.” Stavridis colors those descriptions with glimpses of his own service—“sea stories” in popular parlance—that not only clarify his choices but show why he is held in such high esteem among his fellow sailors. Divided into four main categories—The Oceans, Explorers, Sailors in Fiction, and Sailors in Non-Fiction—Admiral Stavridis’ choices will appeal to “old salts” and

to those who have never known the sights of the ever-changing seascape nor breathed the tonic of an ocean breeze. The result is a navigational aid that guides readers through the realm of sea literature, covering a spectrum of topics that range from science to aesthetics, from history to modernity, from solo sailing to great battles. Among these eclectic choices are guides to shiphandling and navigation, classic fiction that pits man against the sea, ecological and strategic challenges, celebrations of great achievements and the lessons that come with failure, economic competition and its stepbrother combat, explorations of the deep, and poetry that beats with the pulse of the wave. Some of the included titles are familiar to many, while others, are likely less well-known but are welcome additions to this encompassing collection. Admiral Stavridis has chosen some books that are relatively recent, and he recommends other works which have been around much longer and deserve recognition.

The acclaimed author recounts his epic journey across Europe and Asia in this international bestselling classic of travel literature: “Compulsive reading” (Graham Greene). In *The Great Railway Bazaar*, he records in vivid detail and penetrating insight the many fascinating incidents, adventures, and encounters of his grand, intercontinental tour. Asia's fabled trains—the Orient Express, the Khyber Pass Local, the Frontier Mail, the Golden Arrow to Kuala Lumpur, the Mandalay Express, the Trans-Siberian Express—are the stars of a journey that takes Theroux on a loop eastbound from London's Victoria Station to

Tokyo Central, then back from Japan on the Trans-Siberian. Brimming with Theroux's signature humor and wry observations, this engrossing chronicle is essential reading for both the ardent adventurer and the armchair traveler.

Drawing on rarely examined diaries and journals, *Down the Great Unknown* is the first book to tell the full, dramatic story of the Powell expedition. On May 24, 1869 a one-armed Civil War veteran, John Wesley Powell and a ragtag band of nine mountain men embarked on the last great quest in the American West. The Grand Canyon, not explored before, was as mysterious as Atlantis—and as perilous. The ten men set out from Green River Station, Wyoming Territory down the Colorado in four wooden rowboats. Ninety-nine days later, six half-starved wretches came ashore near Callville, Arizona. Lewis and Clark opened the West in 1803, six decades later Powell and his scruffy band aimed to resolve the West's last mystery. A brilliant narrative, a thrilling journey, a cast of memorable heroes—all these mark *Down the Great Unknown*, the true story of the last epic adventure on American soil.

Getting Stoned with Savages Crown

Captain Cook is generally acknowledged as the first great European scientific explorer. His voyage of exploration to the Pacific in HM bark Endeavour, commencing in 1768, lasted almost three years, recorded thousands of miles of uncharted lands and seas – including New Zealand, the east coast of Australia and many Pacific islands – and tested all Cook's skills as

a navigator, seaman and leader. His voyages were among the first to take civilian scientists, notably Sir Joseph Banks, and they revealed to European eyes the mysterious and exotic lands, peoples, flora and fauna of the Pacific, never before seen. But while Cook understandably dominates the story of 18th-century Pacific exploration, the achievements of those who followed him on many voyages of science and exploration into the Pacific have been neglected and deprived of the greater attention they deserve. Correcting this imbalance, *Pacific Exploration* explores the European voyages that continued Cook's work not only of charting but also starting to exploit and control the Pacific. These voyages, by William Bligh, George Vancouver, Matthew Flinders, Malaspina, Lapérouse and Arthur Phillip, span a period that saw Britain becoming the world's leading maritime power, a situation well in place by the time that Charles Darwin's voyage in Fitzroy's *Beagle* laid the basis of even greater understanding of the development of life on earth. Recounting and illustrating these achievements and legacies using fascinating text and beautiful illustrations and artworks from the period, this book explores topics of scientific discovery, engagement with indigenous peoples, the use of shipboard artists and scientists, the growing professionalism of the hydrographic service, the vessels used and the colonial, commercial and imperial contexts of the voyages.

Voyages Round the World Penguin

A rich, complex and engaging account of Cook's voyages across the Pacific, from actor and raconteur Sam Neill. Captain James Cook first set sail to the Pacific in 1768, just over 250 years ago. These vast waters, one third of the earth's surface, were uncharted

but not unknown. A rich diversity of people and cultures navigated, traded, lived and fought here for thousands of years. Before Cook, the Pacific was disconnected from the power and ideas of Europe, Asia and America. In the wake of Cook, everything changed. The Pacific with Sam Neill is the companion book to the Foxtel documentary series of the same name, in which actor and raconteur Sam Neill takes a deeply personal, present-day voyage to map his own understanding of James Cook, Europe's greatest navigator, and the immense Pacific Ocean itself. Voyaging on a wide variety on vessels, from container ships to fishing trawlers and sailing boats, Sam crosses the length and breadth of the largest ocean in the world to experience for himself a contemporary journey in Cook's footsteps, engaging the past and present in both modern and ancient cultural practice and peoples. Fascinating, engaging, fresh and vital - this is history ... but not as you know it.
