"The author introduces an investing methodology with proven results and easily applied unequivocal decision making. Particularly impressive is the way he includes a selling discipline, not just a buying discipline. This book is a must for any concerned investor." Richard Arms, Analyst, Author, and Inventor of The

Arms Index "This is one of the best new investing books of the decade: succinct, practical, and timeless. Built on a foundation of 40 years of market wisdom, it combines technical analysis and portfolio construction that is supported by excellent research. It should be required reading for everyone from new investors to the most sophisticated hedge fund managers." Linda Raschke, President, LBRGroup, Inc. "The author is an award winning Technical Analyst. In this book, he covers the basic principles, definitions, safeguards, pitfalls, and risks of investing. Believing in active management, he recognizes the benefits of multiple tools (fundamental and technical) and disciplines there-

on, to construct a portfolio methodology with guidelines for both buying and selling, for maximum gain. This is a valuable book for any serious investor." Louise Yamada, Managing Director, Louise Yamada Technical Research Advisors, LLC. "In this book, Charles Kirkpatrick demonstrates just how powerful a tool relative strength is, deftly combining technical and fundamental analysis to produce a superior long-term approach. This isn't just theory, but the real-time work of a practitioner with an outstanding track record. For many years a small group of knowledgeable investors has known about this work, now you can too." John Bollinger, CFA, CMT, President, Bollinger Capital Management "The

author presents a clearly written, time-tested formula for investor independence and success through applying relative price strength for stock selection and portfolio construction." Hank Pruden, Golden Gate University Over the past 25 years, Charles D. Kirkpatrick's exclusive stock-picking technique has outperformed the S&P 500's performance by a whopping 7.7 times. That's right: If you'd invested \$10,000 in the S&P 500, you'd have \$130,000 now...but if you'd followed Kirkpatrick's published picks, you'd have \$1,000,000! If that's not amazing enough, Kirkpatrick's system is remarkably easy to use. In this book, he teaches you all you need to put it to work in your portfolio!

Kirkpatrick reveals why an active strategy based on relative stock rankings is the surest route to profit, and how just a few pieces of publicly available information enable you to create rankings that virtually guarantee exceptional performance. You'll learn how to use his techniques to organize stocks into a portfolio that maximizes returns while reducing risk...uncover trigger points that tell you when to buy and sell...and systematically protect yourself against bad stocks and bad markets. Why the conventional wisdom about investing is flat-out wrong. What's wrong with diversification, "random walks," and the efficient markets hypothesis. Don't even try to predict the

markets: you don't have to! Discover what the markets are actually doing: then react fast, with discipline. Invest the intelligent way: with "relatives". Measure what really matters: a stock's relative strength and growth compared with the rest. Start using the market's reliable investment triggers. Recognize what to buy, what to sell, and when to make your moves. Mitigate the risks associated with broad market declines. Intelligently decide when to move assets into cash. A Royal Disaster John Wiley & Sons. Falling in love isn't supposed to be literal... Except if you're a witch who's cast a soulmate spell... Turns out love magic isn't the kind you dabble with. First there's Dixon with his sweet midwestern twang. Then there's action-hero-hot Mateo, who literally swooped in

and saved my life... plus his three insanely handsome brothers. The universe definitely heard my call and it's raining men alright. It seems that controlling the magnetic attraction is where it gets tricky, especially if you mistakenly call upon a magical being, intent on killing you and stealing your power. Whoops. "I love this sad, beautiful, hopeful book." --Kathleen Glasgow, New York Times bestselling author of *Girl in Pieces* and *How to Make Friends With the Dark* For fans of Nina LaCour and Jennifer Niven, a richly layered novel that's both uplifting and heartbreaking, about piecing yourself together after loss and the dark truths we choose to keep from each other and ourselves. San Francisco. New Year's Eve. A tragic accident after the party of the year. Cara survives. Her best friend, G, doesn't. Nine months later, Cara is still struggling, consumed by grief and a dark secret she'd rather forget. In the

hopes of offering a fresh start, her mother sends her to boarding school in Switzerland, a place where no one knows what happened--and where they never will, if Cara can help it. But her new classmates Ren and Hector won't let her close herself off. They are determined to break down the walls she has so carefully built up. And maybe Cara wants them to . . . especially Hector, who seems to understand her like no one else does. The problem is that the closer Cara gets to Hector, the more G slips away. If moving on means letting go of the past--and admitting what she did that night--Cara's not sure how. But a second chance awaits, if she can only find the strength within herself. grief, guilt, and forgiveness." --Sophie Kinsella, New York Times bestselling author of *Finding Audrey* and the *Shopaholic* series
