Swim Speed Secrets for Swimmers and Triathletes

Vertebrate Publishing

In *Swim Speed Secrets*, 4-time Olympian, gold medalist, and triathlon world champion Sheila Taormina reveals the swim technique used by the world's fastest swimmers. Over the course of 4 Olympic Games and throughout her career as a world champion triathlete, Taormina refined her exceptional technique as a student of the sport, studying the world's best swimmers using underwater photographs and video analysis. From Johnny Weissmuller to Michael Phelps, the world's fastest swimmers share two common elements: high stroke rate and a high-elbow underwater pull. Many swimmers and triathletes neglect the underwater pull, distracted by stroke count or perfecting

less critical details like body position, streamlining, and roll. Swim Speed Secrets focuses on producing power—the most crucial element of swimming—to help triathletes and swimmers overhaul their swim stroke and find the speed that's been eluding them. With a commonsense approach that comes from decades of practice and years of hands-on coaching experience, Taormina shows swimmers how to transition to faster swimming. Swim Speed Secrets includes: The best drills to cultivate a more sensitive feel for the water Dryland and strength building exercises to develop arm position and upper body musculature Crisp photos of Olympic swimmers and variations in their high-elbow underwater pull Clear descriptions of the key moments of the underwater pull Tips that helped her perform at a world-class level for two decades Sheila Taormina's Swim Speed Secrets brings the focus back where it belongs—to a powerful underwater stroke. With this approach, triathletes and swimmers can stop swimming for survival and break through to new levels of speed and confidence in the water.

PC Magazine Simon and Schuster From their haunts in the shadowy corner of a bar, front and center at a convenience store, or reigning over a massive mall installation bursting with light, sound, and action, arcade games have been thrilling and addicting quarter-bearers of all ages ever since Pong first lit up its paddles. Whether you wanted a few minutes' quick-twitch exhilaration or the taste of three-initial immortality that came with topping the high score screen, you could get it from the diverse range of space shooters, dot-eating extravaganzas, quirky beat-'em-ups, and more that have helped define pop culture for more than four decades. In *Attract Mode: The Rise and Fall of Coin-Op Arcade Games*, author Jamie Lendino celebrates both the biggest blockbusters (Pac-Man, Star Wars: The Arcade Game) and the forgotten gems (Phoenix, Star Castle) of the Golden Age of coin-op gaming, and pulls back the curtain on the personalities and the groundbreaking technologies that brought them to glitzy, color-drenched life in the U.S., Japan, and all over the world. You'll start your journey exploring the electromechanical attractions and pinball games of the early 20th century. Next, you'll meet the earliest innovators, who used college computers and untested electronics to outline the possibilities of the emerging form, and discover the

surprising history behind the towering megahits from Nintendo, Sega, and others that still inform gaming today. Then you'll witness the devastating crash that almost ended it all—and the rebirth no one expected. The Trail Running Guidebook People

By age 25, Heather Anderson had hiked what is known as the "Triple Crown" of backpacking: the Appalachian Trail (AT), Pacific Crest Trail (PCT), and Continental Divide Trail (CDT)—a combined distance of 7,900 miles with a vertical gain of more than one million feet. A few years later, she left her job, her marriage, and a dissatisfied life and walked back into those mountains. In her new memoir, *Thirst: 2600 Miles to Home*, Heather, whose trail name is "Anish," conveys not only her athleticism and wilderness adventures, but also shares her distinct message of courage—her willingness to turn away from the predictability of a more traditional life in an effort to seek out what most fulfills her. Amid the rigors of the trail—pain, fear, loneliness, and dangers—she discovers the greater rewards of community and of self, conquering her doubts and building confidence. Ultimately, she realizes that records are merely a catalyst, giving her purpose, focus, and a goal to strive toward. Heather is the second woman to complete the "Double Triple Crown of Backpacking," completing the Appalachian, Pacific Crest, and

Continental Divide National Scenic Trails twice each. She holds overall self-supported Fastest Known Times (FKTs) on the Pacific Crest Trail (2013)—hiking it in 60 days, 17 hours, 12 minutes, breaking the previous men's record by four days and becoming the first woman to hold the overall record—and the Arizona Trail (2016), which she completed in 19 days, 17 hours, 9 minutes. She also holds the women's self-supported FKT on the Appalachian Trail (2015) with a time of 54 days, 7 hours, 48 minutes. Heather has hiked more than twenty thousand miles since 2003, including ten thru-hikes. An ultramarathon runner, she has completed six 100-mile races since August 2011 as well as dozens of 50 km and 50-mile events. She has attempted the infamous Barkley Marathons four times, starting a third loop once. Heather is also an avid mountaineer working on several ascent lists in the US and abroad.

'When an accident occurs, something may emerge of lasting value, for the human spirit may rise to its greatest heights. This happened on Haramosh.' The Last Blue Mountain is the heart-rending true story of the 1957 expedition to Mount Haramosh in the Karakoram range in Pakistan. With the summit beyond reach, four young climbers are about to return to camp. Their brief pause to enjoy the view and take photographs is interrupted by an avalanche which sweeps Bernard Jillott and John Emery hundreds of feet down the mountain into a snow basin. Miraculously, they both survive the fall. Rae Culbert and Tony Streather risk their own lives to rescue their friends, only to become stranded alongside them. The group's efforts to return to safety are increasingly desperate, hampered by injury, exhaustion and the loss of vital climbing gear. Against the odds, Jillott and Emery manage to climb out of the snow basin and head for camp, hoping to reach food, water and assistance in time to save themselves and their companions from an icy grave. But another cruel twist of fate awaits them. An acclaimed mountaineering classic in the same genre as Joe Simpson's *Touching the Void*, Ralph Barker's *The Last Blue Mountain* is an epic tale of friendship and fortitude in the face of tragedy.
