BMW 3-series Bentley Pub

Extracting maximum torque and horsepower from engines is an art as well as a science. David Vizard is an engineer and more aptly an engine building artist who guides the reader through all the aspects of power production and high-performance engine building. His proven high-performance engine building methods and techniques are revealed in this all-new edition of **How to Build Horsepower**.

Vizard goes into extreme depth and detail for drawing maximum performance from any automotive engine. The production of power is covered from the most logical

point from the air entering the engine all the way to spent gasses leaving through the exhaust. Explained is how to optimize all the components in between, such as selecting heads for maximum flow or port heads for superior power output, ideal valvetrain components, realizing the ideal rocker arm ratios for a particular application, secrets for selecting the best cam, and giving unique insight into all facets of cam performance. In addition, he covers how to select and setup superchargers, nitrous oxide, ignition and other vital aspects of high-performance engine building.

David Vizard's How to Build Horsepower Bentley Publishers

This manual contains in-depth maintenance, service and repair information for the BMW 3 Series, E90, E91, E92, E93.
