Early systems (Motronic 1.1 only, I think) flash the fault codes automatically. If the check engine light comes on, leave the key in the On

position, but don't start the car. The check engine light will begin to flash the code after about 3 seconds. Each flash is separated by about 1 second.

[The Truth Behind BMW Check Engine Lights!](#)

If the check engine light of your BMW is on, it will either remain constant or blink depending on the issue. A steady light for the check engine indicator means that the issue is likely not serious or an emergency. However, a blinking check engine light usually means that there is a serious engine misfire.
