BMW is a company associated with motoring firsts. The very idea of a sports sedan was merely a novelty until BMW introduced the 5 series in 1972. As BMW's "middle child," the 5 series has drawn features from the company's smallest and largest models, establishing a reputation for performance and practicality through multiple generations. This book covers the history of the 5 series midsize sedan and the related X5 SUV from September 1972 to the e60's major makeover for 2008 and the development of the e70 X5. Specific mechanical, electronic and cosmetic changes are described, including the time of and reasons for their introduction. Several aspects of BMW's corporate history and technically related models such as the 6-series are also described, as are aftermarket modifications by Alpina, Hartge, and other specialist BMW tuners and speed shops. The book includes more than 200 photographs.

A practicing pundit's take on two hundred topics, all distilled into a page or less. The basic idea of Pithy Precepts is to capture the author's thoughts on life, business and finance in a terse and entertaining format. Responding to questions from his offspring as well as their kids, author, entrepreneur and investor Pete Prestegard gives his unabashed take on life, God, society, men and women, family, sex, kids, medicine, sports, starting a business, money, investing and retirement, plus more than 150 related topics. His ideas are presented in his usual terse and pointed manner, leaving little to interpret, with longer illustrative essays on several key entries. The overall concept is to provide input and serve as a guide for his and other families in the future. Included also are more than 100 crisp thoughts, poems and even prayers of other and five appendices with life assist and background setting information.

For over 25 years Rob Siegel has written a monthly column called "The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In *Memoirs of a Hack Mechanic*, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that have passed through his garage over the past three decades. With a steady dose of irreverent humor, *Memoirs of a Hack Mechanic* blends car stories, DIY advice, and cautionary tales in a way that will resonate with the car-obsessed (and the people who love them).

When Mahita was 15, a teacher at her Catholic school in Singapore said she could see the devil in her eyes. While growing up, then raising a family of her own, she constantly fought to understand and control this 'devil' inside her. Born to Indian parents in Singapore and raised by a Chinese amah, Mahita Vas struggled to fit into a conservative society where exuberance is frowned upon and conformity is a tradition. She spent a significant part of life feeling different, being different. Throughout her

career with Singapore Airlines, then as an advertising industry executive, she led a volatile life – sometimes blissfully and enviably contented, at other times wishing she was dead. No one, least of all Mahita, suspected she was mentally ill ... until the day her sister suggested she had 'inherited Daddy's illness'. This epiphanic revelation led to a bipolar disorder diagnosis at age 41, followed by a suicide attempt where she narrowly escaped death. Praying to the Goddess of Mercy charts Mahita's journey from chaos to stability. It offers insights into an illness for which there is no known cause, no cure and no immunity. It will inspire and enlighten people with mental disorders and the loved ones who suffer with them. Ultimately, it is about being true to oneself and having the courage to take charge in the pursuit of happiness.
