I'm trying to locate
the source of a
battery drain on our

1998 540i. The drain
stops on removal of
fuse no.9 which I
understand to be the
circuit with the air-
conditioning control
unit and washer
heaters. Does anyone
have a wiring diagram
for this circuit
please or point me in
the right direction
to one on the web?
I've looked but no
luck so far.

Bmw 540i Sedan (e39)
Wiring Diagram
Schematic

BMW's forth generation
5 Series vehicles,
known by the chassis
designation E39, were
sold between 1995 to
2003. Although the E39
was replaced by BMW
E60 in 2003, the E39
Touring models
continued production
through the end of

2003. With an increased
wheelbase over the BMW
E34 (the E39's
successor), and body
rigidity increases,
suspension was able to
operate more precisely
and improve ride
quality.
