[Manual Transmission Fluid Change BMW E39 - YouTube](#)

Your manual transmission can take a heck of a beating over the years and it is one of the most neglected service areas on a car. The fluid assists in the lubrication and heat disputation of the transmission, and even though it is in a closed environment, the fluid can become old and contaminated. It should be checked for level and changed as per the vehicles service manual.

**BMW DIY Video - How to change Manual Transmission Fluid on ...**

Change the transmission fluid every 30,000 miles or about once every two years. Check your owner's manual for more details on the scheduled requirements for your BMW. This number is a rough estimate, and may vary depending upon the use of your 3 Series (track vs. street).

This part is listed by BMW as BMW part number 83222339221

(83-22-2-339-221) and is described as Genuine BMW MTF-LT-3 Manual

Transmission Fluid. This is the standard BMW recommendation for

transmission oil in 2004-2014 6-speed manual transmissions\*. Use this oil if

your transmission has a MTF label on the side. Although this is the factory

recommended MTF, there may be complaints of cold temperature shifting.

Magnetic drain plug BMW – [www.bavauto.com](http://www.bavauto.com). 6 To fill the manual transmission or differential, use a fluid transfer pump (see our 1/2 liter fluid transfer pump) to add fluid through the filler hole until the level reaches the bottom of the hole. Draw fluid into fluid transfer pump. Pump new fluid through fill plug hole.

[Bmw E30 Manual Transmission Fluid Change](#)

Your manual transmission can take a heck of a beating over the years and it is one of the most neglected service areas on a car. The fluid assists in the lubrication and heat disputation of the transmission, and even though it is in a closed environment, the fluid can become old and contaminated.

[Bmw Manual Transmission Fluid](#)

The BMW E90 manual transmission fluid is filled at the factory with lifetime fluid (green arrow). However, BMW does not define what the lifetime is.

Therefore, it is a good idea to service your fluid every 60,000 miles. If you're unsure of the last service, replace the fluid as soon as possible. Doing so will extend the life of your transmission.

[BMW DIY – Manual Transmission and Differential Fluid ...](#)

BMW Manual / SMG / DCT Transmission Fluid Vintage 5-speed manual Most manual transmissions on vintage models do not have a fluid label on the transmission because nearly all gearboxes took the same fluid - a universal GL-4. If no label is present, the official recommendation is any GL-4 gear oil.

The Bentley BMW 5-series E34 Service manual declares the oil capacity of the 260/5 and 260/6 transmissions to be 1.25 litres. Manual transmissions installed on the E34 are normally filled with Dexron III Automatic Transmission Fluid (DX3 ATF), though alternative fluids may be used depending on shifting effort and gear noise.
