the ON position.  
Take the driver's seat and turn the ignition switch to the ON position but make sure you do not start the car and wait for 3-5 seconds. 2.

2004 330i: My service engine soon light..temperature ...

Car: 2004 330i with 45k miles  
Background: My service engine soon light was coming on once a week and going off for a week. I took it to my mechanic and he replaced a temperature sensor. The day after I got it back the SES light was back on. I

took in back in, they said the codes were cycling and when they turned on a number of electrical accessories, the car died.

*How to Reset the BMW Service Light | Service Indicator*

...  
To reset the indicator:-The car should be off- hold down the left instrument button (the trip odometer reset)-while holding the key, turn the ignition to position 1 (radio)-you will see a test menu- keep holding the

button-after maybe 10 seconds, the word "reset" will appear-let go of the button and press again-The indicator is reset!

Most 2005 and newer BMWs will also show a separate symbol to remind you if you forget to tighten the fuel cap. If the gas cap was loose and you tighten it. The CEL light will reset itself in a few driving cycles, typically within a day or two. If the BMW drives fine, closely monitor the engine temperature.
