Board books must be printed and bound directly on thick paperboard. Board books must be durable and made to withstand the chomping, chewing, bending and attempted tearing that babies and toddlers love to make part of their early reading experience. All of Pint Size's board books are printed directly on a thick paperboard, creased, folded, collated, bound, trimmed and then round cornered and sometimes shaped.

[BoardBook | Paperless Board Meeting Software](#)

Board books are special because the book is smaller and the pages are thicker, making it easy for little ones to hold and flip through the pages. It's also printed with fun colors, shapes, animals, characters, and other images, alluring even the wildest babies and toddlers to read. Board books come in a wide variety of reading level and stories.

[BoardBook | Paperless Board Meeting Software](#)

A board book is a type of children's book printed on thick paperboard. The paperboard is printed and used for both the cover and the interior pages. Each page panel is a minimum of two plies of paperboard thickness. Unlike a typical paper book that is bound with saddle stitching (staples) or perfect binding, a board book's pages are specially folded and bound together.
