The book has six distinct parts, containing in all as many as twenty-eight interrelated chapters. The first part deals with subjects like business environment, business ethics and social responsibilities, management of a firm, etc., while the second part is concerned with the theory of firm, its objectives, accounting standards and creative accounting practices. Part Three of the book dwells at length on the working of the company board, board committees, need for whistle blowing, corporate governance rating and need for separation of the positions of Chairman and CEO. Part Four presents summary recommendations of five Indian Committees on corporate governance in chronological order. These are (i) CII Committee (1998), (ii) 1st SEBI Committee (1999), (iii) Ganguly Committee-RBI (2002); (iv) Naresh Chandra Committee (2002) and (v) 2nd SEBI Committee (2003). Part Five contains six chapters comprising as many live cases on accounting scams. This SDN revisits the debate on bank resolution regimes, first by presenting a simple model of bank insolvency that transparently describes the trade-off involved between bail-outs, bail-ins, and larger capital buffers. The note then looks for empirical evidence to assess the moral hazard consequences of bail-outs and the systemic spillovers from bail-ins.
