How to Properly Ventilate Your Boat ' s Engine Room - Power

...
Get the air moving on your boat with Blowers and Fans made
for marine use. When you're under way air circulation is
usually not an issue but when you anchor or tie up things can
get stale fast. Move the air and build comfort with the right
blower or fan for your needs.

Some inboard/outboard (I/O) engines take in cooling water
from a thru-hull in the engine compartment, and some take it in
through the outdrive. With I/Os that use a thru-hull, the
outdrive will be protected once the engine has had antifreeze
run through it because the antifreeze also runs through the
outdrive.
