## **NOLS Winter Camping**

Cicerone Press Limited  
Few stories from the  
"greatest generation"  
are as unforgettable  
-- or as little known  
-- as that of the 10th  
Mountain Division.  
Today a versatile  
light infantry unit  
deployed around the  
world, the 10th began  
in 1941 as a crew of  
civilian athletes with  
a passion for  
mountains and snow. In  
this vivid history,  
adventure writer Peter  
Shelton follows the  
unique division from  
its conception on a  
Vermont ski hill,  
through its dramatic  
World War II coming-of-  
age, to the ultimate  
revolution it inspired  
in American outdoor  
life. In the  
late-1930s United  
States, rock climbing  
and downhill skiing  
were relatively new  
sports. But World War

II brought a need for  
men who could handle  
extreme mountainous  
conditions -- and the  
elite 10th Mountain  
Division was born.  
Everything about it  
was unprecedented: It  
was the sole U.S. Army  
division trained on  
snow and rock, the  
only division ever to  
grow out of a sport.  
It had an un-matched  
number of professional  
athletes, college  
scholars, and  
potential officer  
candidates, and as the  
last U.S. division to  
enter the war in  
Europe, it suffered  
the highest number of  
casualties per combat  
day. This is the  
10th's surprising,  
suspenseful, and often  
touching story.  
Drawing on years of  
interviews and  
research, Shelton re-  
creates the ski  
troops' lively,

extensive, and sometimes experimental training and their journey from boot camp to the Italian Apennines. There, scaling a 1,500-foot "unclimbable" cliff face in the dead of night, they stunned their enemy and began the eventual rout of the German armies from northern Italy. It was a self-selecting elite, a brotherhood in sport and spirit. And those who survived (including the Sierra Club's David Brower, Aspen Skiing Corporation founder Friedl Pfeifer, and Nike cofounder Bill Bowerman, who developed the waffle-sole running shoe) turned their love of mountains into the thriving outdoor industry that has transformed the way Americans see (and

play in) the natural world.

This is the definitive history of the sport that has exhilarated and infatuated about 30 million Americans and Canadians over the course of the last fifty years. Consummate insider John Fry chronicles the rise of a ski culture and every aspect of the sport's development, including the emergence of the mega-resort and advances in equipment, technique, instruction, and competition. The Story of Modern Skiing is laced with revelations from the author's personal relationships with skiing greats such as triple Olympic gold medalists Toni Sailer and Jean-Claude Killy, double gold

medalist and environmental champion Andrea Mead Lawrence, first women's World Cup winner Nancy Greene, World Alpine champion Billy Kidd, Sarajevo gold and silver medalists Phil and Steve Mahre, and industry pioneers such as Vail founder Pete Seibert, metal ski designer Howard Head, and plastic boot inventor Bob Lange. Fry writes authoritatively of alpine skiing in North America and Europe, of Nordic skiing, and of newer variations in the sport: freestyle skiing, snowboarding, and extreme skiing. He looks closely at skiing's relationship to the environment, its portrayal in the media, and its response to social and economic change. Maps locating major resorts, records of ski champions, and a timeline, bibliography, glossary, and index of names and places make this the definitive work on modern skiing. Skiers of all ages and abilities will revel in this lively tale of their sport's heritage. Powder Ghost Towns Downsview : Ontario, Ministry of Transportation, Electrical Engineering Section

No-Fall Snowboarding

Camping or backpacking in winter is appealing for many who enjoy the serenity of wilderness settings without the crowds and bustle of the summer season. But as rewarding as they can be, these outings require special preparation and a different set of skills than are necessary at other times of the year. Snowfall can quickly cover one's tracks and make orientation difficult. Hypothermia is insidious, and rapidly changing weather conditions can become treacherous, even life-threatening. In addition to those who are exploring the outdoors recreationally, there are also

those who find themselves in unexpected winter survival situations. Each year, people become stranded in wilderness areas, and in most cases they are not equipped to face the challenge of spending an indefinite amount of time outside. Without sufficient gear or knowledge of how to improvise without it, injury or death is often the result. The development of some basic skills, however, can help avert such unfortunate outcomes. As the founder of the renowned nature awareness program Primitive Pursuits, Dave Hall has been practicing survival skills for more than twenty years and has amassed a comprehensive understanding of winter survival. By refining these skills, Dave has reached a point of understanding that is without peer. Through detailed explanations, illustrations, and personal anecdotes, *Winter in the Wilderness* imparts Dave's knowledge to readers, who will learn to meet their most basic needs: making fire, creating shelter, obtaining safe drinking water, navigating terrain, and

---

procuring sustenance. *Winter in the Wilderness* is a handbook for those who want to explore cold-weather camping and those who might find themselves in need of this critical information during an unexpected winter's night out. Whether used for pleasure or for survival, *Winter in the Wilderness* emphasizes the benefits of enriching and deepening our connection with the outdoors. Abigail Adams Simon and Schuster

This book is a comprehensive and practical guide to the core skills, activities, and behaviors that are required of product managers in modern technology companies.

Product management is one of the fastest growing and most sought-after roles by job seekers and companies alike.

The availability of trained and experienced talent can barely keep up with the accelerating demand for new and improved technology products. People from nontechnical and technical

backgrounds alike are eager to master this exciting new role.

The *Influential Product Manager* teaches product managers how to behave at each stage of the product life cycle to achieve the best outcome for the customer. Product managers are under pressure to drive spectacular results, often without wielding much direct power or authority. If you don't know how to influence people at all levels of the organization, how will you create the best possible product? This comprehensive entry-level textbook distills over twenty years of hard-won field experience and industry knowledge into lessons that will empower new product managers to act like pros right out of the gate. With teaching experience both from UC Berkeley and Lynda.com, the author boils down the most complex topics into principles that are easy to memorize and apply. This book methodically

---

documents the tools product managers everywhere use to align their teams with market needs and organizational goals. From setting priorities to capturing requirements to navigating trade-offs, this book makes it easy. Not only will your product succeed, you'll succeed, too, when you read the final chapter on advancing your career. Let your product's success become your success!

In this vivid new biography of Abigail Adams, the most illustrious woman of the founding era, Bancroft Award – winning historian Woody Holton offers a sweeping reinterpretation of Adams 's life story and of women 's roles in the creation of the republic. Using previously overlooked documents from numerous archives, Abigail Adams shows that the wife of the

second president of the United States was far more charismatic and influential than historians have realized. One of the finest writers of her age, Adams passionately campaigned for women 's education, denounced sex discrimination, and matched wits not only with her brilliant husband, John, but with Thomas Jefferson and George Washington. When male Patriots ignored her famous appeal to "Remember the Ladies," she accomplished her own personal declaration of independence: Defying centuries of legislation that assigned married women 's property to their husbands, she amassed a fortune in her own name. Adams 's life story encapsulates the history of the founding era, for she defined herself in relation to the people she loved or hated (she was never neutral), a cast of characters that included her mother and sisters; Benjamin Franklin and James Lovell, her husband 's bawdy congressional colleagues; Phoebe Abdee, her father 's former slave; her financially naïve husband; and her son John

the dimension of travelling through the mountains and the result is a recipe for some of the best outdoor activity days you could ever imagine. I have been fortunate to share some of these adventures with Henry Branigan: Skiing off the summit of Mount Blanc at dawn or, equally enjoyable, skiing under the northern lights from hut to hut in Norway, still my all-time favourite way of travelling through the mountains. A complete guide to alpine ski touring, ski mountaineering and nordic ski touring sets out to provide the fundamentals about going off piste and then journeying through mountain terrain, in a logical, easy to read format. Adapting ski technique for various off piste conditions is an essential skill that makes all the difference between surviving and savouring adventures off piste. The book also covers the fundamental mountaineering knowledge

including navigation, weather and avalanches that are essential before venturing beyond the confines of a ski area. Equipment and planning a tour are covered, whether it is in an Alpine or Nordic environment. All in all this is a very comprehensive and valuable resource for anyone aspiring to venture into the mountains on skis. The nation-state of Trinidad

case for the study of the forces  
and ideologies of nationalism.  
This book reveals how this  
ethnically diverse nation (40%  
African origin, 40-45% East  
Indian origin, plus those of  
Syrian, Chinese, Portuguese,  
French and English descent),  
independent for less than forty  
years, has provided fertile  
ground for the creative tension

between the imagination of the writer in his or her search for a habitable text of identity and the official discourse on nationalism in Trinidad and Tobago. This discourse has in turn been embedded in a struggle that propels the nation's story. Following on from this background, the study examines the changes and influences on the sense of nationalism and peoplehood caused by migration and the ethnicization of migrant communities in the metropolises.
