Engineering Section  
Celebrating the 100th anniversary of the end of WWI, Findout! dicusses the build-up to the war, along with battles, history, technology, and more. Explore pre-war Europe, the US's entry into World War I, the role of women during the War, the technology developed, tanks and artillery, intelligence, espionage, propaganda, and much more. Become an expert on World War I and learn all about the key events that would shape the world. Read about the

conditions that made a world war inevitable, and who the key players were. Written by an expert in the field, DK findout! World War I is a perfect addition to any home, school, or classroom library. Grid-Scale Energy Storage Systems and Applications Zed Books  
Grid-Scale Energy Storage Systems and Applications provides a timely introduction to state-of-the-art technologies and important demonstration projects in this rapidly developing field. Written with a view to real-world applications, the authors

describe storage technologies and then cover operation and control, system integration and battery management, and other topics important in the design of these storage systems. The rapidly-developing area of electrochemical energy storage technology and its implementation in the power grid is covered in particular detail. Examples of Chinese pilot projects in new energy grids and micro grips are also included. Drawing on significant Chinese results in this area, but also including data from abroad, this will be a valuable reference on the

---

development of grid-scale energy storage for engineers and scientists in power and energy transmission and researchers in academia.

Addresses not only the available energy storage technologies, but also topics significant for storage system designers, such as technology management, operation and control, system integration and economic assessment. Draws on the wealth of Chinese research into energy storage and describes important Chinese energy storage demonstration projects. Provides practical examples of the application of energy

storage technologies that can be used by engineers as references when designing new systems.

### The Paintings That Revolutionized Art Penguin

In *What on Earth Happened?*, Christopher Lloyd tells our story from the very beginning of time to the present day, taking giant narrative leaps across millennia and continents. Along the way, he explains exactly how Muslim conquest gave Spain its

paella, how the Earth's collision with another young planet created the moon, how dragonflies the size of seagulls emerged out of the prehistoric waters, and how the Big Bang can be detected in your television. Accessible and endlessly entertaining, this massive book draws on disciplines as wide-ranging as astrophysics and anthropology and will appeal to experts, amateur enthusiasts and

---

the simply curious alike. Completed by 250 colourful photographs, maps, historic paintings, engravings and specially commissioned illustrations, What on Earth Happened? takes an entertaining and informed sideways look at the last 13.7 billion years in the life of our universe.

An introduction to jiu-jitsu from one of its most dominant stars Thanks to the dominance of its practitioners at Ultimate Fighting Championships and other mixed martial arts

tournaments, jiu-jitsu has become one of the most popular forms of martial arts in the United States. This fighting technique features ground fighting and submission moves that bewilder even the most ferocious opponents. In Jiu-Jitsu Unleashed, expert Eddie Bravo teaches you the moves that he used to defeat legendary Royler Gracie--a member of the reigning family of jujitsu--the victory that made him one of the sport's most feared competitors. Jiu-Jitsu Unleashed features: Detailed instruction on stance, kicks, punches, takedowns, and

---

submissions Step-by-step photos of basic and advanced moves modeled by "Fear Factor" host and former "NewsRadio" star Joe Rogan Various theories and strategies behind training and competing After Modernist Painting Penguin Welcome to Planetarium. This museum is open all hours. It houses an incredible collection of astronomical objects, from small, icy moons to huge swirling galaxies. So how big is the Universe? How did it begin and what mysteries

does it hold? With specially written text for younger readers, step inside to explore the Universe in all its glory. *Electrical Engineering Manual* National Geographic Books Painting has often been declared dead since the 1960s and yet it refuses to die. Even the status and continued legitimacy of the medium has been repeatedly placed in question. As such, painting has had to continually redefine its own parameters and re-negotiate for itself a critical position within a broader, more discursive set of discourses. Taking the American Clement Greenberg's 'Modernist Painting' as a point of departure, After

Modernist Painting will be both a historical survey and a critical re-evaluation of the contested and contingent nature of the medium of painting over the last 50 years. Presenting the first critical account of painting, rather than art generally, this book provides a timely exploration of what has remained a persistent and protean medium. Craig Staff focuses on certain developments including the relationship of painting to Conceptual Art and Minimalism, the pronouncement of paintings alleged death, its response to Installation Art's foregrounding of site, how it was able to interpret ideas around appropriation, simulation and hybridity and how today painting can be understood

---

as both imaging and imagining the digital. After Modernist Painting is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and contemporary artistic practice.

### So You Want to Be an Inventor?

Blackstone Publishing

Eliza Knight's bestselling Scottish historical romance series, The Stolen Bride Series, is back with another amazing tale of adventure, passion and love!

Ceana Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong

alliance and ending a decades-old feud. Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish- whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the

English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceana must work together to overcome the obstacles that bind them. But perhaps seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a union born in alliance? Maybe Fate knew all along just who was meant for who...

To Mr. Tate Howard, You are mean you're the smartest quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't

man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know.

From, Your Secret Not Admirer  
*Abigail Adams* Simon and Schuster  
February, 1940. In San Francisco's Chinatown, fireworks explode as the city celebrates Chinese New Year

with a Rice Bowl Party, a three day-and-night carnival designed to raise money and support for China war relief. Miranda Corbie is a 33-year-old private investigator who stumbles upon the fatally shot body of Eddie Takahashi. The Chamber of Commerce wants it covered up. The cops acquiesce. All Miranda wants is justice--whatever it costs. From Chinatown tenements, to a tattered tailor's shop in Little Osaka, to a high-class bordello draped in Southern Gothic, she shakes down the city--her city--seeking the truth. An outstanding series debut.

To My Arrogant Boss McGraw  
Hill Professional  
The sequel to Red-Headed  
Stepchild from USA Today  
Bestselling author Jaye Wells. . .  
Sabina Kane doesn't have the best  
track record when it comes to  
family. After all, her own  
grandmother, the leader of the  
vampire race, just tried to kill her.  
When she arrives in New York to  
meet the mage side of her family,  
the reunion takes the fun out of  
dysfunctional. On top of that, the  
Hekate Council wants to use her  
as a pawn in the brewing war  
against the vampires. Her mission  
will take her into the bowels of  
New York's Black Light district,  
entangles her in mage politics,  
and challenges her beliefs about

the race she was raised to distrust.  
And Sabina thought vampires  
were bloodthirsty.

simplified and accessible substitute for those wishing to know what was revealed in the fifth epochal revelation on Planet Earth. There is hardly anything more interesting.

**I Want You** Hammerhead Press

"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to

become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the

American Museum of  
Natural History.  
The Mage in Black  
Bloomsbury Publishing  
Now available in a  
paperback edition, this  
beautifully illustrated,

delightfully informative  
collection of one hundred of  
the world's most significant  
paintings covers nearly every  
period, culture, and style.  
What makes the Book of  
Kells such an extraordinary  
example of illuminated  
manuscript? Why is Dürer's  
self-portrait so iconic? How  
did Turner's Rain, Steam,  
Speed turn the art world on  
its head? What's so great  
about Jasper John's Flag?  
And who was Whistler's  
mother, anyway? Art history  
is filled with paintings that  
shocked, intrigued, enraged,

and mystified their  
audiences—paintings that  
exemplified the period in  
which they were created and  
forever changed the way we  
think. Here, one hundred  
examples of these icons of art  
are presented in beautiful,  
high-quality reproductions.  
Each double-page spread  
features lavish illustrations  
and details as well as  
engaging texts that explain  
why the painting belongs in  
the pantheon of world  
changing art.

You've probably heard of Leonardo da Vinci. He is dead famous for painting the Mona Lisa and designing the first-ever flying machine. But have heard that Leonardo spent ten years making a seven-metre tall horse, thought pink was the coolest colour for clothes and loved to play practical jokes?

*Science Focus* What on Earth Publishing

Winner of the Bancroft Prize The New York Times Book Review, Editor's Choice American Heritage, Best of 2009 In this vivid new biography of Abigail Adams, the most illustrious

woman of the founding era, Bancroft Award-winning historian Woody Holton offers a sweeping reinterpretation of Adams's life story and of women's roles in the creation of the republic. Using previously overlooked documents from numerous archives, Abigail Adams shows that the wife of the second president of the United States was far more charismatic and influential than historians have realized. One of the finest writers of her age, Adams passionately campaigned for women's education, denounced sex discrimination, and matched wits not only with her brilliant husband, John, but with Thomas Jefferson and George Washington.

When male Patriots ignored her famous appeal to "Remember the Ladies," she accomplished her own personal declaration of independence: Defying centuries of legislation that assigned married women's property to their husbands, she amassed a fortune in her own name. Adams's life story encapsulates the history of the founding era, for she defined herself in relation to the people she loved or hated (she was never neutral), a cast of characters that included her mother and sisters; Benjamin Franklin and James Lovell, her husband's bawdy congressional colleagues; Phoebe Abdee, her father's former slave; her financially naïve husband; and her

---

son John Quincy. At once epic and popular activity books. Play intimate, Abigail Adams, sheds light on a complicated, fascinating woman, one of the most beloved figures of American history.

*Yes and Know Invisible Ink Ages 11-111* Becca Jameson

Publishing

Being a hidden champion is like playing sports as Simon illustrates good and innovative basic work win the right instincts and enough courage to take risks but the book also shows that one player alone is rarely successful it is the team that makes a champion.
